Report on World TB Day Organized by Gautam College of Pharmacy, Hamirpur

Organized By: Gautam College of Pharmacy, Hamirpur

Date: 24-March, 2024

Supported By: IQAC (Internal Quality Assurance Cell)

Introduction: World TB Day is Organized on March 24th every year to raise public awareness about the devastating health, social, and economic consequences of tuberculosis (TB), and to step up efforts to end the global TB epidemic. This year, Gautam College of Pharmacy, Hamirpur, organized a series of events and activities to mark the occasion and contribute to the global fight against TB.

Objectives:

To educate and raise awareness about tuberculosis among students, faculty, and the community.

To highlight the importance of early diagnosis and treatment of TB.

To promote research and development in the field of TB prevention and treatment.

To encourage public participation in TB eradication efforts.

Activities Conducted:

Inaugural Ceremony:

The event was inaugurated by Dr. Sanjay Kumar, Principal of Gautam College of Pharmacy.

Awareness Seminar:

A seminar was conducted focusing on the status of TB, its symptoms, modes of transmission, prevention strategies, and the importance of completing the TB treatment regimen.

Keynote speakers included Dr. Darsh Gautam, Professor HIPER Nadaun, H.P, who shared valuable insights and statistics about TB in India and globally.

Poster Presentation:

Students participated in a poster presentation competition where they displayed creative and informative posters on various aspects of TB.

Topics included the history of TB, TB symptoms and diagnosis, treatment options, and preventive measures.

The best three posters were awarded certificates and prizes.

Interactive Session:

An interactive session was held where participants could ask questions and discuss their concerns with the experts.

The session was aimed at clarifying doubts and dispelling myths related to TB.

Rally and Street Play:

A rally was organized to spread awareness about TB in the nearby community.

Students and faculty members participated enthusiastically, carrying banners and placards with messages about TB prevention and treatment.

A street play was performed by the students, depicting the impact of TB on individuals and families, and the importance of timely treatment.
