LIBRARY FACILITY AT GAUTAM COLLEGE OF PHARMACY

The library assumes a critical art in bestowing education: it is the asset center point for knowledge. The library is furnished with reprographic facilities of convenience for the students and staff. The students and staff are given adequate facilities including internet with free downloading. The library is computerized utilizing the latest Integrated Library Management system. The library has a library advisory committee. The committee has the Principal, HOD, the Library in charge, and the librarian. The committee is proposed to plan and facilitate the execution of the essential methods for the working of the library. It takes up the way towards distinguishing arranging, and acquiring the books, journals, manuals etc. It guarantees the users of the library to stay up with the technological development

The open access system continues in our library, where users are permitted to go straightforwardly to the racks, select their preferred books, and submit the same in the issue counter. Separate e-library is additionally accessible with facilities like E-journals and E-books. To facilitate national and international networks and libraries. For sharing data and recording and gathering, putting away and spreading the data, and by offering computerized services to the users. Separate reference books are maintained for students and staff.

The library has free access networks for the students where they can pick the book that is needed by them for issue. The library provides facilities for self-study, research information collection, and assemblage. Newspaper stand for daily newspaper reference is mounted and updated daily.

The institute provides an Integrated Library management system to the college library from where all the students and faculty members can access e-journals and e-books. The library used DELNET software as an integrated library management software. Advanced DELPLUS software can manage all the books in the library in a proper manner. A Barcode scanner and printer are used in the library. The barcode system can enhance the quality management of the books. Each book has a unique bar code which can be scanned by a scanner. It ensures that each book is issued and returned to the library. It also prevents the misplacing of books. A separate issue register has been used to record the library usage by the students and teachers.

The students provide a library period where students can access the books for self-study. Four advanced version PCs are also provided by the management in the library with LAN connection where the students can access online information.
