PERSONALITY DEVELOPMENT ..

"Personality is that pattern of characteristics - thoughts, feelings and behaviour that distinguishes one person from another and that persists over time."

"It is the sum of biologically based & learnt behaviour which forms the person's unique responses to environmental stimuli?"

① Five Dimensions of Personality :

a). Openness to experience : (inventive / curious vs consistent / cautious).

It describes a person's degree of intellectual curiosity, creativity, appreciation for art, emotion, adventure, unusual ideas & variety of experience. It is also described as the extent to which a person is imaginative or independent & depicts a normal preference for a variety of activities over a strict routine. Some disagreement remains about how to interpret the openness factor.

b). Conscientiousness (efficient / organized vs. easy-going careless):

Conscientiousness is a tendency to show self-discipline, act dutifully & aim for achievement.
→ It also refers to planning, organization and dependability.

c). Extraversion (outgoing / energetic vs. solitary reserved):

Extraversion describes energy, positive emotions, assertiveness, talkativeness & the tendency to seek stimulation in the company of others. Low extraversion causes a reserved, reflective personality which can be perceived as aloof or self-absorbed.

d). Neuroticism (sensitive / nervous vs. secure / confident)

Neuroticism is a tendency to experience unpleasant emotions easily, such as anger, anxiety, depression and vulnerability. It also refers to the degree of emotional stability and impulse control & is sometimes referred to by its low pole 'Emotional Stability'.

Significance of Personal development

The scope of personality development is quite broad. It includes how to dress well, social graces, grooming, speech and interpersonal skills.

To better appreciate its importance, some of the key benefits of developing your personality includes the following:-

- i) Confidence: Personality development gives more confidence to people. When you know you are appropriately attired and groomed, this makes you less anxious when meeting a person.
- ii) Interaction: Personality development encourages people to interact with others. If your hygiene & social graces are unrefined, then expect to have a much harder time connecting with people.
- iii) Leading and Motivating: Personality development enhances the capacity to lead and motivate. People are less likely to get bored and your ideas will take more credibility. ~~Project~~ Lead better if we project an air of confidence.

and credibility.

CONCLUSION

The celebration of International Day Against Drug Abuse at Gautam College of Pharmacy, Hamirpur, was a resounding success. The expert lecture by Mr. Dinesh Gautam D.I. Hamirpur not only educated but also inspired the college community to enhanced knowledge about the sign and symptoms of drug abuse and addiction as well as impact on physical and mental health. With around 115 attendees. The college looks forward to organizing more such events to promote health awareness and community service.

NEXT STEPS

To build on the momentum generated by the event, the following steps are proposed:

- **Prevention Programs:** Implement evidence-based prevention programs in schools, communities, and workplaces to educate individuals about the risks of drug abuse and promote healthy behaviors. These programs can include education about the dangers of drug abuse, life skills training, and promoting positive peer influences.
- **Early Intervention:** Identify and provide support to individuals who may be at risk of developing substance abuse issues. This can involve early screening and intervention in healthcare settings, schools, or community organizations.
- **Access to Treatment:** Ensure that individuals struggling with drug abuse have access to comprehensive treatment services, including behavioral therapies, counseling, medication-assisted treatment, and support groups. Access to treatment should be readily available and affordable.
- **Public Awareness Campaigns:** Develop public awareness campaigns to dispel myths about drug abuse, reduce stigma, and promote understanding of addiction as a treatable medical condition.

By taking these steps, communities and governments can work together to address drug abuse comprehensively and effectively, supporting individuals in leading healthy, drug-free lives.

I would like to express my gratitude to Principal, HOD and all faculty members, and students who actively participated in the activity and contributed to its success.

2. Drug Repurposing Concept:

- Repurposing involves taking drugs that are already approved for one disease and finding new therapeutic uses for them.
- This approach can accelerate the availability of treatments by bypassing some stages of drug development.

3. Reasons for Repurposing:

- Reduced Development Time and Costs:** Existing drugs have established safety profiles, which can significantly cut down the time and cost of bringing a new treatment to market.
- Known Pharmacokinetics:** The behaviour of these drugs in the body is well-documented, allowing for more predictable outcomes.
- Potential for New Applications:** Drugs developed for other conditions might have unexpected efficacy against hepatitis.

4. Successful Examples:

- Antiviral Agents:** Some antiviral drugs originally developed for other viral infections have shown promise against hepatitis viruses.
- Anti-Cancer Drugs:** Certain drugs used in cancer treatment have exhibited activity against hepatitis viruses due to their impact on cellular mechanisms that the viruses exploit.
- Immunomodulators:** Drugs aimed at modulating the immune system may enhance the body's ability to fight hepatitis infections.

5. Research and Clinical Trials:

- The lecture detailed ongoing research and clinical trials exploring various repurposed drugs.
- Notable examples include trials of drugs initially developed for HIV and cancer that are now being tested for their efficacy against Hepatitis.

Q & A Session: Following the lecture, an interactive question answer session was held, where participant had the opportunity to engage directly with Dr. Anoop Kumar.

An interactive Q&A session followed the keynote presentation, where participants had the opportunity to ask questions and seek clarifications from Dr. Ishaq. The session was highly engaging, with participants expressing their concerns and receiving practical advice on addressing them.

Objective: This report focuses on Criterion 5 of NAAC, which pertains to Student Support and Progression. The criterion evaluates how well an institution supports students throughout their academic journey and facilitates their progression.

Key Aspects Evaluated:

1. Student Support

- o **Scholarships and Financial Assistance:** Institutions must provide details about scholarships, free ships, and financial aids available to students. This includes government-funded scholarships, institutional scholarships, and other financial support measures.
- o **Counselling and Guidance:** Effective counselling services should be available for academic, career, and personal issues. This includes mentorship programs, career counselling sessions, and psychological support services to help students navigate their academic and personal challenges.
- o **Grievance Redressal:** An efficient mechanism must be in place to address student grievances related to academic and administrative matters. Institutions should have a dedicated grievance redressal cell and an online system to handle complaints.

Director cum Principal
Gautam College of Pharmacy
Hamirpur (H.P.)

- **Support for Differently-Abled Students:** Institutions need to ensure inclusivity and accessibility by providing necessary facilities and support systems for differently-abled students.
2. **Student Progression**
 - **Enrollment and Retention Rates:** Institutions should maintain and report data on student enrollment and retention rates, along with strategies implemented to reduce dropout rates and improve student retention.
 - **Graduation Outcomes:** Information on the number of students graduating on time, the rate of students pursuing higher education, and placement statistics. Institutions should track and support students' performance in competitive exams and their progression to higher studies or employment.
 - **Participation in Activities:** Encouragement of student participation in co-curricular and extracurricular activities, such as sports, cultural events, and student clubs, which contribute to their holistic development.
 - **Alumni Engagement:** The institution's alumni network, including contributions and support from alumni, plays a crucial role in mentoring and providing opportunities to current students.
 3. **Evaluation and Feedback Mechanisms**
 - **Student Satisfaction Surveys:** Regular surveys to measure student satisfaction with various aspects of the institution, including academic programs, facilities, and support services.
 - **Feedback Systems:** Mechanisms to collect and analyze feedback from students on courses, faculty, and institutional facilities. This feedback should be used for continuous improvement.
 4. **Additional Support Initiatives**
 - **Career and Placement Services:** A dedicated placement cell to assist students in securing employment post-graduation. This includes organizing job fairs, campus recruitment drives, and providing training for interviews and competitive exams.
 - **Entrepreneurship Development:** Support for students interested in entrepreneurship through incubation centers, workshops, and startup mentorship programs.
 - **Remedial Coaching and Bridge Courses:** Additional academic support for weaker students through remedial classes, bridge courses, and peer tutoring.

Conclusion:

NAAC Criteria 5: Student Support and Progression is vital for ensuring that institutions provide a supportive and enriching environment for students. By focusing on financial assistance, career guidance, student activities, and effective governance, institutions can significantly enhance student success and satisfaction. Continuous monitoring and improvement in these areas are essential for maintaining high standards of education and fostering overall student development.
