After rejoining from leave, the faculty member must resume his or her revised duties. Disobedience or contempt for examination work/duty will result in significant disciplinary action.
2. For the smooth conduct of the examination, the Invigilator should be proactive and shall report to the exam center room at least 20 minutes before the beginning of the examination he/she will be responsible for collecting answer books and stationary material essential for smooth conduct of examination. After the test is over, all of the invigilator's stationery must be returned to the examination control room.
3. Students must be present in the examination hall for at least 10 minutes before the start of the examination in case if he or she fails to do so, the student will not be allowed to appear in the examination without permission from the Dean Academic/Principal.
4. The invigilator must verify that all students are in college uniform along with ID card for the examination and that they are only permitted to bring stationery with them, such as a ballpoint pen and a pencil/eraser.
5. Before the question paper is distributed, the Invigilator will remind all students that cell phones, MP3 players, smartwatches, and other electronic devices must be switched off and put away, not carried in pockets. If any assistance material is discovered at or near the desk that is not clearly approved, it may be considered an effort to cheat/malpractice, and the appropriate action will be taken.
6. Cases of **malpractice** during sessional examinations will be investigated by the examination committee **and members consisting of the invigilator and the subject's HOD**. The appropriate action will be taken against the defaulter in accordance with the institution's and university's norms and regulations for examination administration.
7. Before attestation during the examination, the invigilator must confirm that the student has filled in all information on the first page of the sessional ANSWER SHEET precisely and neatly. No sessional Answer scripts will be allowed if any credential is left blank, for which the invigilator must provide a written explanation to the principal.

8. The examination hall should maintain complete silence throughout the examination, and the interchange of pens, pencils, erasers, and other items is not permitted

Evaluation of sessional examination:

1. Before beginning the evaluation, the evaluator must ensure that the student has completed all information on the front page of the sessional ANSWER SHEET correctly and neatly and that the invigilator has verified the same. If any credential is left unfiled, the respective evaluator must report it to the examination committee in writing, which will be forwarded to the Dean Academic, and Principal for further action against the invigilator.
2. The examiner/subject teachers have to collect the sessional answer script from the examination center between working hours (4:30-5:00 PM) and must provide the evaluated answer papers within 07 calendar days after completion of the sessional examination, following the conclusion of the sessional examination to announce the results of the sessional examination quickly and for analysis of the findings, failing which required action will be taken. To ensure marks obtained in the examination the subject teacher must show the answer script to students and get their signature on the sessional answer script before submitting the answer booklets. On the sessional answer script, the evaluator must sign along with his or her name.
3. On the front page of the Answer scripts, the evaluator must fill in all of the required credentials, as well as individual question wise marks, grand total marks, and grand total marks in words.
