

# **GAUTAM COLLEGE OF PHARMACY**

7.3 Institutional Distinctiveness

# **GAUTAM COLLEGE OF PHARMACY**

**7.3.1 Portray the performance of the Institution in one area distinctive to its priority and thrust within 1000 words**

## **INSTITUTIONAL DISTINCTIVENESS**

Gautam College of Pharmacy has been one of the cornerstones in nurturing pharmaceutical It hosts professionals with robust infrastructure, state-of-the-art facilities, and experienced Faculty that provides its students with integrated education. GCOP is one of the unwavering. It is further underpinned by various key elements that anchor dedication to excellence, innovation, and education, all for the holistic development of students.

## **ACADEMIC EXCELLENCE**

GCOP maintains a high academic quality, often with full-fledged programs consonant with theoretical knowledge and experience that guarantees the preparation of graduates for any challenge in the professional intensity of pharmacy. For example, it is a course that introduces some value-added training programs, through which students can improve their soft skills and corporate etiquette, preparing them to be more competent in the global market. Real-world issues, such as one having minor and major projects among the students, are encouraged so that they can gain this invaluable first experience. Regular industrial visits and internships expose the students to the actual work environment, while the various programs provide hands-on training with the most recent industry technologies.

# Tanishka Pharmaceuticals Pvt. Ltd.

This is to certify that Nikhil Kumar S/O Baldev Ra), student of B pharmacy (University Roll Number: 21013314040) at Gautam College of Pharmacy, Hamirpur has successfully completed an Internship at Tanishka Pharmaceuticals Private Limited from 3rd June 2024 to 3rd July 2024.

During the internship he actively participated in various aspects of our pharmaceutical manufacturing processes in various sections including tablets, capsules, ointment, liquids, dry syrups. He also participated in Quality Control of these sections and got a deep understanding of principles like Quality Assurance, GMP, GLP and other regulatory affairs.

During his time with us, he demonstrated a high level of professionalism, integrity, and a keen willingness to learn. He quickly adapted to the dynamic work environment, contributing to a positive and productive atmosphere within the team.

We extend our gratitude for his outstanding dedication and valuable contributions during the internship period. We are confident that he possesses the potential to make significant strides in the pharmaceutical industry and beyond. We wish him success in his future endeavours and hope that the experiences gained at Tanishka Pharmaceuticals will serve as a strong foundation for his professional growth.

Placement Statistics of last five Academic years

At Gautam College of Pharmacy, we are committed to ensuring that our students are well-prepared for the competitive job market. We take pride in our placement record, which reflects our dedication to providing quality education and career opportunities for our students.

we are pleased to report the following placement statistics:

- **Bachelor of Pharmacy (B.Pharm) 2019 Batch:** Out of a total of 34 students, 14 have successfully secured placements in various industries. This represents an impressive placement rate of approximately 41%.

- **Bachelor of Pharmacy 2020 Batch:** Among the 54 students enrolled in this program, 6 have achieved placements, resulting in a placement rate of around 11%.

Additionally, we are proud to highlight that 21 students from both programs have opted for higher studies to further enhance their knowledge and skills in the pharmaceutical field.

These statistics demonstrate our commitment to fostering a strong foundation for our students, equipping them with the necessary skills and knowledge to excel in their careers or pursue further education. We continuously strive to improve our placement opportunities and support our students in achieving their professional goals.

We remain dedicated to building strong partnerships with industries and providing our students with the resources they need to succeed in their chosen paths.

# **GAUTAM COLLEGE OF PHARMACY**

**Holistic Development**

Gautam College of Pharmacy firmly believes in the all-round development of a student where they show an upward graph of intellectual, emotional, social, and ethical growth. The college, through mentorship, extracurricular activities, and community engagement, develops individuals in a rounded way so that they may contribute towards positive societal change. The Pharmaceutical Society Excellence Framework at Gautam College of Pharmacy presents a key avenue through which students could participate in activities that provide academic and personal growth. It is this framework that consequently provides a very conducive atmosphere where friendship and student participation thrive in the decision-making affairs with regard to policies of the college and matters concerning events. It is an enrichment of college experience in all students through various activities and initiatives, while also providing opportunities to society for the acquisition of important leadership skills in areas like communication and organizational ability through the organization of sports, cultural, and co-curricular activities. The membership and participation in the Pharmaceutical Society are recognized and rewarded by the promotion of a culture of excellence and achievement among students. This is manifested by the improved academic standards, reduced dropout rates, and sense of ownership towards their college developed in the students, thereby preparing them for future endeavours through the society's collaborative approach between students, college management, and staff.

Report on Fresher party organised at Gautam College of Pharmacy

Date: 13 March 2021

Chief guest: Mr. Jagdish Gautam (Managing Director, Gautam group of colleges)

Venue: Auditorium Gautam College of Pharmacy

Fresher party organized at Gautam College of Pharmacy on 13th March 2021. The event was graced by Shri Jagdish Gautam, the Managing Director of Gautam College of Pharmacy, as the chief guest.

The objective of the fresher party was to welcome the new batch of students to the college and provide them with a warm and enjoyable introduction to the college environment. The event aimed to foster a sense of camaraderie among the students and create a platform for interaction and engagement.

The event commenced with a vibrant and colourful welcome extended to Shri Jagdish Gautam, who honoured us with his presence as the chief guest. The program was held in the college auditorium, which was adorned with festive decorations and thematic elements to create an inviting atmosphere.

The ceremony began with the lighting of the lamp, symbolizing the commencement of a new academic journey for the freshers. This was followed by an invocation song performed by our talented students, which set a positive and harmonious tone for the event.

Shri Jagdish Gautam then delivered an inspiring speech, welcoming the new students and encouraging them to make the most of their time at the college. He emphasized the importance of academic excellence, extracurricular participation, and ethical conduct, while also highlighting the supportive environment provided by the college for their holistic development.

Next, a series of cultural performances were organized by the senior students to entertain and engage the freshers. We had various dance performances, musical renditions, and skits that showcased our talent and creativity. These performances were met with great enthusiasm and applause from both the freshers and senior students.

To facilitate interaction and bonding, several fun activities and games were organized for the freshers, allowing them to mingle with their peers and seniors. This helped in breaking the ice and fostering a sense of belonging among the new students. Sourav thakur and Dipali thakur awarded as Mr and Miss fresher.

The event concluded with a vote of thanks delivered by Head of department Mr. Sanjay Kumar, expressing gratitude to Shri Jagdish Gautam for gracing us with his presence and motivating the students through his insightful speech. We also thanked the faculty members and staff who contributed to the success of the event.

Overall, the fresher party was a resounding success, filled with joy, excitement, and camaraderie. It provided an opportunity for the new students to feel welcomed and embraced by the college community.

## Report on "Celebrating 75 Years of Independence" - Azadi ka Amrit Mahotsav

Event Name: Celebrating 75 Years of Independence - Azadi ka Amrit Mahotsav  
Date: 03rd June 2022

Venue: Auditorium, Gautam College of Pharmacy

### Introduction

The "Celebrating 75 Years of Independence" event, part of the Azadi ka Amrit Mahotsav, was a significant celebration held to commemorate India's 75 years of independence. This event aimed to foster a sense of patriotism, unity, and cultural appreciation among the participants and attendees.

### Venue and Date

The event was held on the 03rd of June, 2022, in the auditorium of Gautam College of Pharmacy. The well-equipped auditorium provided an excellent venue for the various activities organized during the celebration.

### Chief Guest

The chief guest for the event was Shri Jagdish Gautam, the Managing Director of Gautam Group of Colleges. His presence added significant value to the celebration, highlighting the importance of the occasion.

### Activities Organized

To mark this momentous occasion, two major activities were organized:

#### 1. Rangoli Competition

- The Rangoli competition saw enthusiastic participation from students, showcasing their creativity and artistic skills through vibrant and intricate designs. Rangoli, a traditional Indian art form, was an apt choice to celebrate the rich cultural heritage of India.

#### 2. Poster Presentation

- The poster presentation segment allowed participants to explore and present various themes related to India's journey over the past 75 years. This activity encouraged research, creativity, and the effective communication of ideas, contributing to a deeper understanding of the country's progress and challenges.

Gautam College of Pharmacy  
Hamirpur (H.P.)

### 3. Yoga Session

A yoga session was organized to promote physical well-being and mental peace among the participants. Yoga, an ancient practice originating in India, symbolizes the country's holistic approach to health and wellness. The session included various asanas (postures) and pranayama (breathing exercises) to rejuvenate the mind and body.

### Participation

The event witnessed a robust turnout with over 80 participants, comprising students from different Gautam College of Pharmacy departments. The active involvement of the participants highlighted their enthusiasm and commitment to celebrating India's independence.

### Conclusion

The "Celebrating 75 Years of Independence" event was a resounding success, thanks to the dedication and creativity of the participants and the support of the college administration. Through activities like the Rangoli competition and poster presentation, the event not only celebrated India's independence but also instilled a sense of pride and appreciation for the nation's rich heritage and achievements.

The Azadi ka Amrit Mahotsav serves as a reminder of the sacrifices made for India's freedom and the continued efforts required to build a prosperous and inclusive nation. Events like these play a crucial role in inspiring the younger generation to contribute positively to the country's future.

## Report on Youth Festival organized at Gautam College of Pharmacy 2022

Date: 21/11/2022 to 22/11/2022

Chief guest: Dr. Shashi Kumar Dhiman (Vice Chancellor of Himachal Pradesh technical university), Hamirpur

Venue: Gautam college of Pharmacy, Hamirpur

### Introduction:

The Gautam College of Pharmacy organized a vibrant and engaging two-day youth festival from 21/11/2022 to 22/11/2022 at its campus. The event aimed to provide a platform for students to showcase their talents, foster a sense of community, and promote cultural exchange among participants. This report highlights the key activities, achievements, and ethical considerations of the youth festival.

On the first day, the youth festival kicked off with an opening ceremony which included March past by the college teams, lighting of the torch and speeches by the college principal and the chief guest. The youth festival commenced with the lighting of the ceremonial lamp by the chief guest Prof Shashi Kumar Dhiman Hon'ble Vice Chancellor of the Himachal Pradesh Technical University, along with Prof Jai Dev Dean Academics of Himachal Pradesh Technical University and Dr. Jagdish Singh Bandhan Director cum Principal of Gautam College of Pharmacy. Distinguished Guests, Coaches, Team in charges and participants and about 500 students attended the inaugural function. The chief guest also delivered a motivating speech. A Cheque of rupees one lac was handed over by Hon'ble Vice Chancellor to the management of the college as a partial financial assistance for Organisation of the sports meet. Dr. Jagdish Singh Bandhan Director cum Principal Gautam College of pharmacy welcomed all the dignitaries and shared that these events are organized with the objective to provide a platform for the students to showcase their talent with competitive spirit. About 30 colleges have participated in various activities of the youth festival from all over the state.

The Cultural events are as follows

- 1) Group Dance folk
- 2) Solo Dance
- 3) Free Style Dance
- 4) Patriotic theme-based dance
- 5) Theme based skit/mime

On the 2nd day of the sports meet, the focus shifted to the final of all the events. The competition was fierce as participants vied for top honors in their respective categories. The closing ceremony was a fitting conclusion to the two-day extravaganza. Winners and runners-up were felicitated with trophies and medals, recognizing their outstanding achievements. The event concluded on a high note, with participants and spectators alike feeling a sense of accomplishment and pride in their accomplishment.

Director cum Principal

## Gautam college of Pharmacy got IInd position in theme-based skit and IInd prize in theme based solo dance

### Achievements:

1. **Participation:** The youth festival witnessed a significant turnout of participants from different colleges and universities. This diverse participation enhanced cultural exchange and facilitated networking opportunities among the attendees.

2. **Talent Showcasing:** The festival provided a platform for students to showcase their talents in various fields. Participants displayed exceptional skills in dance, music, art, sports, and other areas of interest. This not only boosted their confidence but also inspired others to explore their talents.

3. **Learning Opportunities:** The workshops and seminars offered valuable learning experiences for the attendees. Experts shared practical knowledge and insights that could help students make informed decisions about their careers and personal growth.

### Ethical Considerations:

1. **Informed Consent:** Participants were provided with clear information about the festival's activities, including any potential risks or requirements for participation. Informed consent was obtained from all participants involved in the various events.

2. **Privacy and Confidentiality:** Personal information collected during registration or competitions was handled with utmost confidentiality and used solely for the purpose of organizing the festival.

3. **Voluntary Participation:** Participants had the freedom to choose whether to participate in any specific event or activity without facing any negative consequences.

4. **Fair Treatment:** All participants were treated fairly and without discrimination based on their gender, race, religion, or background.

### Conclusion:

The two-day youth festival at Gautam College of Pharmacy was a resounding success, providing a platform for students to showcase their talents, learn from experts in various fields, and engage in cultural exchange. The event adhered to ethical considerations by ensuring informed consent, privacy protection, voluntary participation, fair treatment, and respect for participants' right

## Report on FRESHER'S DAY CELEBRATIONS-2023

Organized By: Gautam College of Pharmacy

Date: 01/04/2023

Supported By: IQAC (internal quality assurance cell)

### Introduction

Fresher's Party is intended to warmly welcome new students and support their creative talents in order to enhance their confidence. 01/04/2023 was marked as a memorable day in the life of every fresher at Gautam college of Pharmacy, Hamirpur. Freshers' Day was a day full of anticipation, delight, music, devotion, laughter, and celebration. It's the day when juniors and seniors finally get along and come together to celebrate attending college. The dress code for Fresher's day was 'Beauty and the Beast'. The program started with lamp lightening by Dr. Jagdish Gautam (Managing Director), Dr. J.S Badhan (Director cum Principal), Associate Prof. Ravinder khatri (Departmental HOD), worthy faculty member Gautam college of Pharmacy, Hamirpur. The celebration is followed by the inaugural speech of the program president for the freshers were formally welcomed into the Gautam family which also included the introduction of the whole batch. Beginners and their seniors had the opportunity to display their talent through a magnificent ramp walk and a variety of dance performances, including solo, duo, and group dances. Later, little games were planned to make the event more challenging and entertaining the function Later, they were instructed to form a line, and then a round of questions was conducted, from which Mr. and Ms. Freshers were selected. There was tough competition among the freshers as they all were amazing! There was tough competition among the freshers as they all were amazing! The Jury members were chosen as Mr. and Miss Fresher, respectively. The event was finally concluded with a vote of thanks by Mr. Ravinder khatri (Associate Professor)

# GAUTAM COLLEGE OF PHARMACY ORGANISED MEHNDI COMPETITION ON 31<sup>st</sup> OCTOBER 2023 (TUESDAY)

**Day & Date:** Monday, 31<sup>st</sup> October 2023

**Venue:** Seminar Hall,

**Time:** 2.00 pm to 3.00 pm

**Event coordinator:** Mrs. Kumari Varsha

**Event Overview:**

**Panel of Judges:-** Mrs. Kumari Varsha,  
Mrs. priyanka  
Ms. Varsha devi

## **Rules and regulations:**

1. Mehndi design should be creative and unique.
2. Mehndi design should be portrayed on one hand till elbow.
3. Mehndi design must cover one hand and also must be covering both side of palm.
4. The participants need to bring their own materials (Mehndi cones & other materials).
5. A team must have 2 participants, one artist and the other is subject (Model).
6. Time duration to complete the Mehndi will be one hour. No extra time will be provided.
7. Judging will be based on overall appearance, creativity and design.

Mehndi, otherwise known as henna, is a paste associated with positive spirits and good luck. This competition was organized to seek and develop the traditional values among them. Students enthusiastically participated in the competition. They displayed their artistic designs through an array of mehndi on their hands. Some were old and common but some designs were unique and trendy. The aim of this competition was not merely to see the drawing skills of the students but also the creativity of the students and their way of representation which will in turn improve the overall personality of student. Students created beautiful designs in different themes. Mehndi reflects the rich Indian culture bringing together the knowledge of medicinal herbs with many lovely sentiments and beliefs. It is said that the deeper colour of the Mehndi on the hands symbolises the profound love. In some communities, the darkness of the Mehndi indicates the strength of the relationship.

## REPORT ON RANGOLI COMPETITION

**Day & Date:** Monday, April 17, 2023

**Venue:** Seminar Hall,

**Time:** 10.00 am to 12.00 pm

**Event coordinator:** Mrs. Kamari Varsha

### Event Overview:

The Rangoli Competition held at Gautam college of pharmacy in the Seminar Hall on April 17, 2023, was a colorful and artistic event that celebrated the traditional Indian art form of Rangoli. Organized by the Cultural Committee, this competition provided a platform for students to showcase their creativity, cultural appreciation, and artistic skills.

### Objectives:

The objectives of the Rangoli Competition were as follows:

1. Celebrate and promote the rich Indian heritage and tradition of Rangoli, preserving and passing down cultural practices.
2. Provide students with a creative outlet to express themselves through intricate designs and vibrant colors, encouraging artistic expression.
3. Promote teamwork and collaboration among participants, as many worked in groups, highlighting the importance of cooperation in artistry.
4. Learning Outcomes:
5. The Rangoli Competition provided participants with numerous valuable learning outcomes:
6. Students learned to appreciate the cultural significance of Rangoli as a traditional Indian art form, deepening their connection with their cultural heritage.

### Conclusion:

The Rangoli Competition at Gautam college of pharmacy in the Seminar Hall Seminar Hall on April 17, 2023, was a colorful and culturally enriching event that successfully achieved its objectives of promoting traditional art, fostering creativity, teamwork, and aesthetic sensibility among students. It also served as a platform for students to express their artistic talents and connect with their cultural heritage through the beautiful and intricate designs of Rangoli. Winners are selected by faculty members.

**First prize winners** - 3<sup>rd</sup> year students (Shivani, Pragya, Poonam, Arundhati, Isha thakur)

**Second prize winners** - 4<sup>th</sup> year students (Mohit, Dipali, Purnima, Tanvi, Priya)

**Third prize winners** - 2<sup>nd</sup> year students (Mehak Bhatia, Anchal sharma, vianshu, Muskan, Puneet)

Principal, Gautam College of pharmacy appreciated the participants and congratulated the winners and awarded with prizes 1000 first prize, 500 for second prize & 300 for 3<sup>rd</sup> prize.

This competition exemplified the commitment of GCOP to holistic education, emphasizing the importance of preserving cultural traditions and promoting artistic expression alongside academic pursuits. It is anticipated that future editions of the Rangoli Competition will continue to celebrate the artistic diversity and cultural appreciation of GCOP students.

Report on Gautam College of Pharmacy's Participation in HPTU Annual Youth Festival 2023 at  
Himalayan Group of Institute, Kala Amb

Date: 26/10/2023 to 28/10/2023

Venue: Himalayan group of colleges, Kala Amb Sirmour H.P.

## Introduction:

Gautam College of Pharmacy participated in the Himachal Pradesh Technical University (HPTU) Annual Youth Festival 2023, held at the Himalayan Group of Institute, Kala Amb. The event provided a platform for students to exhibit their talents, engage in cultural exchange, and participate in various competitions. This report outlines the visit and performance of Gautam College of Pharmacy at the festival.

The students were very much excited as they were longing to perform and visit some other college from long time and this was the opportunity. On 25<sup>th</sup> October 2023 group of participants stated journey to Himalayan group of colleges kala amb for youth festival participation. About 21 students which include 11 boys, 10 girls & 2 faculty members visited to Himalayan college of Pharmacy. Gautam college of Pharmacy organized a special bus from the local transporters so that the students stay in comfort while travelling. The Journey is about 6 hours long. Students are full of enthusiasm as they travelled whole journey by singing songs and dancing. At 6:00pm we reached at the campus of Himalayan group of colleges. They welcomed us and arrange out three day stay at their boys and girls' hostels.

On day first, the event is started by lamp lighting by the dean academics of HP technical university Prof (Dr) Jaldev. He enlightened the audience with his speech and explained the importance of cultural events in student life. He also offered the cheque of rupees one lakh to the college management for organising such a big event. Afterwards the event is heat up with the energetic performances of the participants.

On second day, the local MLA of kala amb visited the event as a chief guest and enjoy the vibe of the cultural activities performed by the students from all over the state.

The event activities are as follows

- 1) Solo Dance (Classical theme)
- 2) Solo dance free style
- 3) Group dance Folk based theme
- 4) Group dance free style
- 5) Patriotic theme based group dance
- 6) Theme based skit/mime

Around 35 colleges and 500 participants were visited to the kala amb. The college has very good canteen and security facilities.

On Last day, the competition was very tough. It was very difficult for the judges to announce the positions to participants as the performances are very outstanding. The chief justice of the High court was the chief guest of the last day. Winners are felicitated by the trophies.

Gautam College of Pharmacy  
Hamirpur (H.P.)

Gautam college of Pharmacy bagged first position in group dance folk and it was hot news in their local newspapers because there was a tough competition in folk dance. The participants of the Gautam college of Pharmacy give their best. Though the participants skit was little bit sad as they don't get any position but still they all happy as a team.

The college teachers enjoy the live show of our activity performance by YouTube link. On the night of 28<sup>th</sup> October 2023, we packed our bags and travelled back to our destination. The next day college management cheer up the students for their wonderful performance.

**Conclusion:**

The participation of Gautam College of Pharmacy in the HPTU Annual Youth Festival 2023 at Himalayan Group of Institute, Kala Amb was marked by enthusiastic involvement in cultural performances, competitions, workshops, sports activities, and social initiatives. The students effectively showcased their talents, gained valuable insights, and contributed to the overall success of the festival while upholding ethical considerations throughout their participation. The event served as a platform for holistic development, cultural exchange, and community engagement for the students of Gautam College of Pharmacy.

**Glimpses of event:**

# ग्रुप डांस में गौतम कालेज हमीरपुर व फ्री स्टाइल में नगरोटा विजेता

गौतम कॉलेज  
हमीरपुर  
दिल्ली

गौतम कॉलेज हमीरपुर की छात्राओं ने नगरोटा में आयोजित हुए युवा उत्सव में ग्रुप डांस में नगरोटा विजेता का खिताब जीता। छात्रों का प्रदर्शन अत्यंत प्रभावशाली था और इसे देखने वाले सभी को हैरत में डाल दिया।

## Report on One day Yoga celebration at Gautam college of Pharmacy

Date: 19/03/2024

Location: Auditorium, Gautam college of pharmacy, Hamirpur. (H.P) 177001

In Collaboration with: Morarji Desai national institute of yoga, Ministry of Ayush, Govt of India, New Delhi & Career point university, Hamirpur

Yoga is a holistic practice that originated in ancient India and has been practiced for thousand of years. The word "Yoga" comes from Sanskrit word "Yuj" which means to yoke or unite, symbolizing the connection between the mind, body and spirit. Yoga encompasses a wide range of physical, mental and spiritual practices that aim to promote overall well-being and harmony. Yoga is a versatile and adaptable practice that can be tailored to suit individual needs and goals. Its introduction to the world has had a profound impact on the health and wellness of countless individuals. Gautam college of pharmacy organized one day yoga camp in collaboration with Morarji Desai national institute of yoga, ministry of Ayush, govt of India, New Delhi & Career point university.

Morarji Desai national institute of yoga was established in the year 1970. It acts as the nodal agency for promotion and development of yoga across the India and is focused on yoga research, yoga therapy & yoga education. One day camp was conducted in blended mode both online & offline. World Famous Sanskari Yog guru Dr. Ram Avtar was the chief guest of the event. He addressed the students about the various benefits of yoga in student life. He also taught the students about increasing focusing power which will be beneficial in studies.

Yoga celebration commenced with a warm welcome address by the Director cum principal Dr. Sanjay Kumar secretary of Gautam group of colleges Dr Rajneesh Gautam, highlighting the significance of yoga in promoting physical, mental, and spiritual well-being. One day camp was conducted in blended mode both online & offline. World Famous Sanskari Yog guru Dr. Ram Avtar was the chief guest of the event. He addressed the students about the various benefits of yoga in student life. He also taught the students about increasing focusing power which will be beneficial in studies

This was followed by a series of yoga sessions conducted by certified yoga instructors, focusing on various asanas, breathing techniques, and meditation practices. The participants actively engaged in the yoga sessions, demonstrating their enthusiasm and commitment to embracing the ancient practice of yoga. The event provided an opportunity for students and faculty members to experience the benefits of yoga firsthand, including improved flexibility, stress relief, and overall health enhancement.

Director cum Principal  
Gautam College of Pharmacy  
Hamirpur (H.P.)

A special lecture on the importance of incorporating yoga into daily life was delivered by a renowned yoga expert world famous sanskari yog guru Dr. Ram Avtar, inspiring the audience to adopt a holistic approach to health and wellness. The lecture emphasized the role of yoga in maintaining a balanced lifestyle and cultivating inner peace and harmony. Yoga celebration at Gautam College of Pharmacy concluded with a group meditation session, symbolizing unity and harmony among all participants. The event received positive feedback from attendees, who expressed their gratitude for the opportunity to engage in a meaningful and rejuvenating experience.

Academic incharge Mr. Ravinder Khatri concluded the show by giving the vote of thanks to world famous yog guru Dr. Ram avtar for his valuable knowledge and secretary of Gautam group of colleges for organising such an enchanting event.

## A REPORT ON HIMACHAL PRADESH TECHNICAL UNIVERSITY ANNUAL SPORTS MEET 2023-24

Date: 28/03/2024 to 30/03/2024

Venue: Gautam College of Pharmacy, Hamirpur

Chief guest: Dr. Shashi Kumar Dhiman ( Vice chancellor of HP technical university)  
Dr. Jaidev ( Dean academics of HP technical university)

The Himachal Pradesh Technical university annual sports meet was held in college premises of the Gautam College of pharmacy Hamirpur on 28<sup>th</sup>, 29<sup>th</sup> & 30<sup>th</sup> march 2024. The three day annual sports meet at Gautam College of pharmacy was a spectacular event that brought together students, faculty and staff in a celebration of athleticism and camaraderie. The event took place from 28<sup>th</sup> march to 30<sup>th</sup> march and was marked by a series of exciting competition and activities. The event was organized with great enthusiasm and participation from students, faculty and staff.

Day-1: on the first day, the sports meet kicked off with an opening ceremony with include March past by the college teams, lighting of the torch and speeches by the college principal and the chief guest. The sports meet commenced with the lighting ceremonial lamp by chief guest Prof Shashi Kumar Dhiman Hon'ble Vice Chancellor of the Himachal Pradesh Technical University, along with Prof Jai Dev Dean Academics of Himachal Pradesh Technical University and Prof Dr. Sanjay Kumar Director cum Principal of Gautam College of Pharmacy. Distinguished Guests, Coaches, Team in charges and participants and about 500 students attended the inaugural function. The chief guest also delivered a motivating speech. A Cheque of rupees one lakh was handed over by Hon'ble Vice Chancellor to the management of the college as a partial financial assistance for Organisation of the sports meet. Dr. Sanjay Kumar Director cum Principal Gautam College of pharmacy welcomed all the dignitaries and shared that these events are organized with the objective to provide platform for the students to showcase their talent with competitive spirit.

These sports events are as follows:

1. Kabaddi (Boys/Girls)
2. Volleyball (Boys/Girls)
3. Badminton (Boys/Girls)
4. Handball (Boys/Girls)
5. Chess (Boys/Girls)
6. Carom board (Boys/Girls)
7. Table tennis (Boys/Girls)
8. Judo (Boys/Girls)
9. Taekwondo (Boys/Girls)

About 26 colleges and 700 students were participated in this annual sports meet 2023-24, Various cultural activities also performed sarswati vandana and bhangra by the students on day 1 to heat up the vibe of the sports event.

  
Director cum Principal  
Gautam College of Pharmacy  
Hamirpur (H.P.)

Day-2: The second day of the sports meet was dedicated to team sports such as volleyball, kabaddi and handball. The matches were intense and closely contested, with teams giving their all too sure victory. The spectators cheered loudly, creating an electrifying atmosphere that fueled the players' determination to excel. Students were showing their very keen interest in indoor games like carom board, chess, and table tennis. Sports in charges were scheduled the matches with the coordination of coaches. Dr. Sanjay kumar Director cum principal was also managing and involved in each and every work related to the sports meet. He coordinates with each and every committee and keeps update with the result of each and every sports activity which motivates the staff to give their best for the success of the event. Second day was very intense and the games like carom chess and badminton last till 10 of the night. The lighting arrangement in the Gautam college of pharmacy was so well that darkness of the night was not become hindrance in the games.

Day-3 : On the final day of the sports meet, the focus shifted to the final of all the events. The competition was fierce as participant vied for top honors in their respective categories. In addition cultural programs also adding colourful dimension to the event. The closing ceremony was a fitting conclusion to the three day extravaganza. Winners and runners-up were felicitated with trophies and medals, recognizing their outstanding achievements. The event concluded on a high note, with participants and spectators like feeling a sense of accomplishment and pride in their accomplishment.

Overall, the annual sports meet at Gautam college of Pharmacy was a resounding success, promoting teamwork, sportsmanship, and physical fitness among students. It provided a platform for students to showcase their talents and fostered a sense of community with in the college. The event was a memorable experience for all involved and highlighted the importance of sports in holistic student development.

# A REPORT ON BLOOD DONATION CAMP AT GAUTAM COLLEGE OF PHARMACY, HAMIRPUR

**ORGANIZED BY:** GAUTAM COLLEGE OF PHARMACY, HAMIRPUR

**SUPPORTED BY:** IQAC (Internal Quality Assurance Cell)

**Date:** 01/12/2023

**Objective:** The primary objective of the blood donation camp was to collect blood donations to meet the increasing demand for blood transfusions in hospitals and medical facilities.

## **Participants:**

- **Donors:** around 40<sup>+</sup> donors participated in this camp
- **Organizers:** Mr. Ravinder Khatri and Mr. Akhil Moudgil
- **Medical Team:** Dr. Kavita and their staff

## **Activities:**

1. **Registration:** Donors were registered upon arrival to maintain records and track the blood type donated.
2. **Medical Check-up:** Each donor underwent a brief medical examination to ensure eligibility for blood donation, including checking vital signs and hemoglobin levels.
3. **Blood Donation:** Donors who passed the medical screening proceeded to donate blood. The process was conducted in a hygienic and sterile environment by qualified medical staff.
4. **Refreshments:** Post-donation, donors were provided with refreshments and observed for a short period to ensure their well-being.
5. **Documentation:** Proper documentation of each donor's details, blood type, and donation volume was maintained for record-keeping.

## **Achievements:**

- 10 units of blood collected in this camp
- Various types of blood collected

  
Director cum Principal  
Gautam College of Pharmacy  
Hamirpur (H.P.)

- **Impact:** The blood collected will help save lives in emergency situations, surgeries, and treatments requiring blood transfusions.

#### **Challenges:**

- **Logistics:** Managing logistics such as space, equipment, and donor flow.
- **Awareness:** Ensuring sufficient awareness and participation in the community.
- **Safety Measures:** Adhering to stringent safety and health protocols amidst the ongoing pandemic (if applicable).

**Conclusion:** The blood donation camp was a significant success, thanks to the generous participation of donors and the dedicated efforts of volunteers and medical staff. The event not only contributed to addressing the local blood supply needs but also raised awareness about the importance of regular blood donation in saving lives.

#### **Recommendations:**

- Continuation of regular blood donation camps to maintain an adequate supply.
- Increasing community awareness through campaigns and outreach programs.

**Acknowledgment:** We extend our heartfelt thanks to all donors, volunteers, medical professionals, and supporters who contributed to the success of the blood donation camp. Their selfless efforts are invaluable in supporting healthcare services and saving lives.

### ABSTRACT

During ancient times, *Curcuma longa*, a perennial herb belonging to the turmeric family, was utilized in the culinary industry as a natural pigment. Decades of research have been devoted to determining the medicinal properties and function of curcumin in the prevention and treatment of cancer. This has led to the development of novel techniques for the extraction, purification, synthesis, and optimization of curcumin production and applications. The remarkable studies that investigated the extraction and purification of curcumin are available, but most of the techniques are still at the lab level. In this review, comprehensively, we have discussed the currently developed curcumin extraction, synthesis, nano-formulations, therapeutic uses and Hot Compressed Water Extraction technique.

**KEYWORDS:** Curcumin, synthesis, extraction, therapeutic use, Hot Compressed Water Extraction

## REVIEW ARTICLE

# A REVIEW ON MICROSPHERES: TYPES, METHODS AND EVALUATION

Darsh Gautam<sup>1\*</sup> and Poonam Talwar<sup>2,3</sup>

(Received 27 June 2023) (Accepted 20 April 2024)

### ABSTRACT

Controlled drug delivery system (CDDS) allows active pharmaceutical agent (API) to be released over extended periods of time, ranging from days to months, by using drug-encapsulating devices. Such systems have a number of merits over conventional drug delivery techniques, including the ability to customize drug release rates, safeguard delicate medications, and improve patient comfort and compliance. Microspheres are suitable carriers for numerous controlled delivery applications owing to CDDS's high bioavailability, prolonged drug release features, biocompatibility and ability to encapsulate a wide range of medicines. This review paper discusses fabrication techniques for microparticles, preparation and characterization processes used to prepare these microspheres, various types of microspheres such as on the basis of drug release pattern (matrix, coated, reservoir) and on the basis of drug delivery system (mucoadhesive, floating, bio-adhesive, radioactive, polymeric, and magnetic, etc.), and the key variables affecting drug release rates from encapsulated particles.

**Keywords:** Controlled drug delivery system, microsphere, mucoadhesive, floating, radioactive, magnetic

### INTRODUCTION

One type of controlled drug delivery system (CDDS) is the microsphere. CDDS means that the drug is to be released for a prolonged time interval but frequent use of drug is required when the drug has a short half life. CDDS basically enhances the efficacy of drug, as it overcomes the process of basic conventional dosage forms<sup>1</sup>. They are free flowing powders mainly having protein structure and also contain various polymers<sup>2</sup>. Microspheres are eco-friendly as they are biodegradable. Microspheres can also be called as micro particles. They have a particle size not more than 200 µm. The main purpose is not to cause any inconvenience to the patient<sup>3</sup>. The medicaments are encapsulated, homogeneously dissolved or suspended into the polymer, and put into capsules. Microspheres have gained much attention because they release the medicament slowly to enhance the optimum activity for a definite period of time. It causes minimum toxicity as

it is having minimum side effects. Microspheres have also been used in the research field and also used in pharmaceutical sciences. Microspheres have a specific drug delivery target system. Microsphere can also be used in the CDDS of vaccines, antibiotics, etc. The sustained version of the drug is released using the microspheres used for oral administration<sup>4</sup>.

### Need for CDDS

In the detailed study of dosage forms (conventional and controlled), the drug release mechanism for both the delivery systems is plotted in the form of graph drawn between drug concentration and time of administration of drug. The release profiles are shown in Fig. 1 and Fig. 2.

### History of microspheres

As compared to the past decades, we have gained more knowledge about microspheres as compared to all other dosage forms. A lot of research has been performed on this. The first research was carried out by

## ABSTRACT:

**Background:** In this research we have prepared sulfonated castor oil (or Turkey red oil), by the continuous addition of concentrated sulphuric acid to castor oil with continuous stirring for 3h at a temperature of 25-30 °C. Since this continuous reaction is stoichiometry, there is no formation of waste product, thus eliminating any consequences related pollution.

**Objective:** This research paper is carried out by experimental study of castor oil, through extraction of oil from castor beans, characterization and chemical modification of extracted castor oil.

**Methods:** The role of n-hexane or petroleum ether was used as a solvent for the extraction process. After extraction the castor oil was purified through degumming, neutralization and bleaching process using adsorbent activated clay. The extracted oil was chemically modified to produce Turkey red oil with the help of sulfonation reaction.

**Results:** The physico-chemical analysis revealed that all the physico-chemical properties of the extracted oil such as pH, acid value, saponification value and specific gravity, viscosity, have almost similar values. In case of sulfonated castor oil the parameters like specific gravity, pH, saponification value and acid value shows slight increase with respect to the standard values as per Indian Pharmacopoeia (IP) whereas viscosity value has slight decrease. Remaining all parameters like reaction time, color of product and solubility were similar.

**Conclusions:** The synthesized sulfonated castor oil (Turkey red oil) could be valuable as additive in food industry (as emulsifier and stabilizer), cosmetics (as a pigment remover), and in pharmaceutical industries as coating agent, polymerization agent, preservative, immunology booster, etc.

## 1. Introduction

Vegetable oils [1] play an important role in the production of the national economy because seed oils bring great benefits to human existence and reduce the burden on people's lives today. Castor seed oil belongs to the vegetable oil family [2]. Generally, vegetable oils or fats are common plant-derived lipid substances that are physically found to be in a liquid state at room

temperature, whereas fats are in a solid state at room temperature [3]. Vegetable oils are composed of triglycerides that do not contain glycerin in their structure [4]. Many commodities from plant sources such as soybeans [5], rapeseed [6], palm [7], corn [8], jatropha [9], and castor seeds [3] have been considered petroleum candidates. Among these sources, castor oil is a potentially promising raw material. It is known

## Abstract

In the present era, researchers are focusing on medicinal plant research throughout the world as medicinal plants are an important and cheap source of drugs and have a long history. Most of the remedies in the traditional system were taken from plants due to lack of technology, and using plants as medicines were proven to be useful. *Lantana camara* L. (Verbenaceae) is an aromatic plant as well as a rich source of medicinal compounds. From decades the plant is used to treat many diseases i.e., malaria, fever, cold and cough etc. Several essential phytochemicals have been isolated from *L. camara* L., including triterpenoids, flavonoids, alkaloids, saponins, steroids, and tannins. Moreover, it is also known as an essential oil-producing plant, and the essential oil is available in the market known as Lantana oils. Thus due to the above mentioned economic as well as medicinal properties of *L. camara* L.; there is a need of a comprehensive report on the ethnobotanical, phytochemical, pharmacological and toxicological aspects of *L. camara* L. This review will be useful for researchers working in the field of genomics, metabolomics and molecular studies of medicinal plants.

Keywords: Medicinal plant, pharmacological activity, Phytochemical, *Lantana camara*

## 1. Introduction

Linnaeus recognized the genus *Lantana camara* L., which belongs to the family of plants known as Verbenaceae, in the year 1753 as a plant that had medicinal, ornamental, and essential oil-producing properties. Six of its seven species have been discovered in the Americas, while the seventh has been discovered in Ethiopia [1]. Its origins can be traced back to South America, but it is now present in nearly fifty countries throughout the globe, with some of those countries even permitting its production [2]. The plant is commonly used as a decorative element in gardens and is also known as sagebrush and red sage [3]. At elevations of up to two thousand metres, *L. camara* can be found growing in regions that are classified as either tropical, subtropical, or temperate [4].

## Role of *Cinnamomum verum* leaves in the management of Vascular dementia: A comprehensive overview

Shivam Thakur\*, Abhay Sharma, Karan Thakur, Ayush Ballhar, Mohit Sharma, Sunil Kumar and Aman Thakur

Gautam College of Pharmacy, Hamirpur, Himachal Pradesh, India.

International Journal of Science and Research Archive, 2024, 11(02), 670-699

Publication history: Received on 12 February 2024; revised on 19 March 2024; accepted on 22 March 2024

Article DOI: <https://doi.org/10.30574/ijrsra.2024.11.2.0490>

### Abstract

Spices are utilized for both culinary and medicinal purposes and have been for a very long time originating from Sri Lanka and southern India. *Cinnamomum verum* may also be found in other Asian, Caribbean, Australian, and African countries. The principal compounds contained are Cinnamaldehyde and Eugenol, both of which have unique medicinal qualities in the leaves of *Cinnamomum verum*. Cinnamaldehyde (CA), a bioactive phytochemical offer therapeutic advantages against the beginning of cardiovascular illnesses. Eugenol is an organic compound found in the leaves of *Cinnamomum verum*. Eugenol has antihypercholesterolemic and antiatherogenic effects. Eugenol's smooth muscle relaxant effect is due to its inhibition of receptor-operated and voltage-sensitive channels. Endothelial cells create nitric oxide (NO), which relaxes blood vessels. Eugenol has substantial anti-inflammatory properties. The antipyretic activity of eugenol is well recognized, since it reduces fever by reducing prostaglandin and sodium archedonate synthesis. Eugenol's hydrophobic nature allows it to pass the blood-brain barrier and enter the brain. Eugenol protects neuronal cells against the oxidative and excitotoxic effects of N-methyl-D-aspartate (NDMA). Eugenol has neuroprotective properties in hippocampal tissues due to its capacity to reduce brain-derived neurotrophic factor (BDNF) and postpone amyloid  $\beta$ -peptide (A- $\beta$ ) induced cell death via abnormal Ca<sup>2+</sup> blocking. Anti-hypertensive property of Eugenol is known as it has the ability to activate TRPV channels and to relax endothelium-depleted arteries. Eugenol, which is found in *Cinnamomum verum* leaves, has been shown to be beneficial in the control of hypertension and so may be beneficial in the management of vascular dementia.

**Keywords:** *Cinnamomum verum*; Cinnamon; Eugenol; Anti-hypertensive; Neuroprotective; Vascular dementia

### 1 Introduction

Spices are vital food components that play an important function in meal preparation. Around the world, over a hundred plant species are utilized as spices and condiments. They are fragrant, dried plant pieces derived from seeds, fruits, leaves, roots, and bark, among other things. Since ancient times, they have been used to add flavor to dishes and improve food quality [1]. A variety of spices also serve as great preservatives, extending the shelf life of food by delaying the rotting process [2]. Furthermore, spices, as a rich reservoir of physiologically active chemicals, have antioxidant, antibacterial, anti-inflammatory, anti-diabetic, and anticancer effects, among others [3].

Cinnamon is a spice derived from the inner bark of many plants of the genus *cinnamomum*. Cinnamon is known in German as ceylonzimmt/kaneel, in hindi as dal-chini, and in Italian as cannella [4]. *Cinnamomum* is one of the earliest spices known to have been used in cooking. Though several species in this genus are sold as cinnamon, the inner dried bark of *Cinnamomum verum* J. Presl (family lauraceae) has traditionally been regarded as the authentic cinnamon. Its medicinal and culinary benefits have been widely documented in ancient literature extending back 4000 years [4].

**Abstract:**

*Nigella sativa*, also known as Black Seed, is a plant with seeds that have been used as a spice for a long time. People also call it by various names like Kalonji, Black caraway, and Black cumin. Recently, there's been a growing interest in natural remedies, like *Nigella sativa*, because they have fewer side effects compared to pharmaceutical drugs. These seeds are packed with nutrients. The oil in the seeds is full of healthy fats, and the essential oil has antioxidants like thymoquinone and carvone. While it expands globally, its main growth regions are Eastern Europe, the Middle East, and Western Asia. It is grown commercially in several Indian states, including West Bengal, Punjab, Jharkhand, Himachal Pradesh, Bihar, and Assam. Also involved in small-scale farming are the states of Tamil Nadu, Rajasthan, Madhya Pradesh, and Uttar Pradesh. They also contain proteins, alkaloids, and saponins, which are good for health. People use *Nigella sativa* and its components to improve health and treat various conditions like jaundice, fever, digestion problems, paralysis, piles, and skin diseases. This review focuses on how the chemicals in *Nigella sativa* work in the body to provide these health benefits.  
**Key words:** Black cumin, Thymoquinone, Bioactive, Paralysis, Nutraceutical.

**Introduction:**

Black Seed (scientific name *Nigella sativa*) is derived from the Latin word "Niger" (black) (1). A popular spice in *Nigella Sativa*, according to its botanical name. It's also known by the names Black cumin, Black caraway, Black seed, Roman coriander, Kalonji, nutmeg bloom, and fennel flower (2). While it expands globally, its main growth regions are Eastern Europe, the Middle East, and Western Asia (3, 4). It is grown commercially in several Indian states, including West Bengal, Punjab, Jharkhand, Himachal Pradesh, Bihar, and Assam. Also involved in small-scale farming are the states of Tamil Nadu, Rajasthan, Madhya Pradesh, and Uttar Pradesh (3). Its seeds contain more than a hundred essential components, including fatty acids, volatile oils, proteins, carbohydrates, saponins, alkaloids, tannins, flavonoids, sterols, and trace minerals (5,6). There have been described activity related to hepatoprotection, renal protection, gastroprotection, analgesic, antibacterial, anti-inflammatory, spasmolytic, bronchodilator, antioxidant, antidiabetic, anticancer, and immunomodulator (7). The seeds of this plant are

commonly called "black cumin" in English, "habbat us sauda" in the Middle East, and "Kalonji" in southern Asia (8). In traditional medicine, the seed of this plant was used to cure a wide range of conditions, including back pain, asthma, fever, bronchitis, cough, chest congestion, dizziness, paralysis, chronic headache, inflammation, infertility, and various gastrointestinal disorders like dyspepsia, flatulence, diarrhea, and dysentery. (9).

**Common names:** Kalonji seeds are commonly known as black seed, black cumin, or nigella seeds, Fennel flower, Black caraway, Roman coriander (2,10)

**Botanical Description (11-15)**

**Black cumin:** The hardy annual plants known as black cumin grow to a height of 20 to 60 cm (8 to 24 inches).  
**Leaves and roots:** Fine, finely divided leaves adorn the branched stems, and the plant has a well-developed taproot.  
**Flowers:** The flowers are pale blue or white, with five petals, many stamens, and a long tubular corolla with six long fused carpels.  
**Seeds:** The dark, triangular or pyramid shaped seeds are carried in a capsule consisting of five or six segments, each

## A review: The pharmacological activities of *Murraya koenigii* Spreng.

Tanvi Kapil<sup>1</sup> Student in Gautam college of Pharmacy, Hamirpur. Pin code 177001.

Priyanka Sharma<sup>2</sup> Assistant Professor in Gautam college of pharmacy, Hamirpur. Pin  
 .code 177001.

**Abstract:** *Murraya koenigii* in English is Karipatta or kadipatta in Nepali as well as Hindi. The biological source of *Murraya koenigii* is *Murraya koenigii* Spreng and it belonging family Rutaceae. It was found in Himalayas, Maharashtra, Tamilnadu, Andhra Pradesh, Assam, Andaman and Nicobar island. It is one of the main component of formulation in the traditional ayurvedic system of Medicine many centuries. It is used in the treatment of many disease including kidney stone, dysentery disorder, renal pain, stomach upset and morning sickness. Blood purifier. The leaves, stem and bark of this plant are rich in source of carotenoid alkaloid. Different part of the plant are used in Leaves, Stem, moss, fruit and seeds that it used to provide the strengthening of immune system. There are various Pharmacological activities are. Anticancer, anti diabetic, antibacterial, antifungal, antihelminthic, antirheumatic and hepato protective properties. The curry tree is having many disease preventing ingredients which can be used as natural source to make newer, alternative and innovative medicines. The leaves are used traditionally as a spice in curry and other eatables. Plant have been used in traditional medicine for several thousand years. Curry leaves used traditionally as blood purifier, febrifuge. World about 80% population relies upon herbal product because they have been consider as safe effective and economical. Medicinal plant are used in herbalism and thought to have some medicinal properties. They are easily available source for health care purpose in rural and tribal area. Ethnobotany is a distinct branch of natural science dealing with various aspect such as anthropology, archeology, botany, economics and medicine religions, cultural and several other disciplines.

### Keywords.

*Murraya koenigii*, Anticancer, Antioxidant, Anthelmintic, Hepatoprotective.

### Introduction:

*Murraya koenigii* Spreng belonging to family Rutaceae and it is usually known as *M. koenigii* is referred to as karipatta or kadipatta in Hindi and Nepali. Different parts of the plant are used like leaves, stem, root, fruit, and seeds that is used to provide strengthening immune system. It was found in Himalayas, Maharashtra, Tamilnadu, Andhra Pradesh, Chhattisgarh, Karnataka, Assam, Andaman and Nicobar island. Different biological properties of *M. koenigii* possess Anti-inflammatory, Antibacterial, Antidiabetic, Antioxidant and anti-proliferative properties [Gautam P. malhotra et al. 2021]. Curry leaves contain many important ingredient like carbohydrates, protein, fiber, calcium, phosphorus, iron, magnesium, copper, zinc and vitamin like nicotinic acid, vitamins B, C, A, and E, Flavonoids, glycosides, plant sterols, and antioxidants. *Murraya koenigii* boiled with coconut oil to condensed to residue that are used as dominant hair tonic for creating and maintaining of natural hair tone, hair stimulation and prevention of premature graying hair [DR Priyanka Gupta 2020]. The oil is applied externally for hives, eruptions, and in the fragrance and soap industries. *Murraya koenigii* is a semi-evergreen aromatic tree used for febrifuge, analgesic, and skin eruption purposes. It is a staple in Indian dishes and is well known for its subtle flavor and used confidently in daily cooking. The British were India they called it curry leaf naming after the seasoned sauce it was added to. *Murraya koenigii* possesses a lot of bioactive principles, which have made it a valuable medicinal plant, but scientists haven't given it much thought [Rajendran NP 2014]. *Murraya koenigii* is proven as natural medicinal plant. The leaves of the plant have been used in Indian Cuisine and also used for centuries in the Ayurvedic system of medicine. The bark is helpful in treating snakebites [Kang w 2018]. The tropical subtropical region in the world have large distribution of *M. koenigii* [Hirish KL 2012]. *Murraya koenigii* Leaves are slightly bitter in taste, pungent in smell, and weakly acidic. Various part of *M. koenigii* are used to treat diabetic, chronic, dysentery, fever and diarrhea [Anit Choudhury 2020]. The leaves of *M. koenigii* are used traditionally to treat toothache and teething issues in babies, skin irritation caused by scabies and remedy for stomachache and headache [Gautam P. malhotra et al. 1962; 125-127]. Leaves and roots of *C. indica* treat various health issue, such as flu, cold, joint dislocation, bone fracture, headache, colic and rheumatism. *C. indica* fruit are widely used in Vietnam and south Indian cooking mainly due to their aroma [Himachi Shekar Datta 2018].

### Abstract

Hair is a crucial aspect of identity, contributing to self-worth and confidence. It is a modified epithelial structure formed through keratinization of germinative cells, growing as outgrowths of skin follicles. Factors like infections, autoimmune disorders, chemicals, medications, diabetes, trauma, poor circulation, diet, and malnutrition can lead to hair loss. Symptoms include breakage, gradual loss, especially at the crown. Fenugreek, rich in vitamins and nutrients, nourishes hair follicles and boosts blood flow to the scalp, aiding hair growth and reducing hormonal imbalance-induced hair loss. Hemp, with cannabinoids like CBD, stimulates hair follicle cells and enhances effects of treatments like finasteride. Onion oil, high in sulphur, strengthens hair and prevents loss by promoting collagen production. These herbs have beneficial chemical qualities for hair growth and scalp health maintenance when combined into an oil.

**Keywords:** Hair, Hair re-growth, Scalp, Hair fall, Oil, Fenugreek, Cannabis, Onion.

### Introduction

Hair is the essential part of the human personality and a leading essential for self confidence and self-esteem. To guard against its loss has ever been an important aspect. Alopecia is common problem in youngsters specially these days [1]. Hair loss is a common and distressing disorder that involves genetic, dietary, medical, and environmental variables. Androgenic alopecia, or male-pattern baldness, is the most prevalent cause of hair loss in males, whereas medical diseases including hypothyroidism, oral contraceptives, and nutritional deficiencies cause hair loss in women [2, 3]. Humans are born with roughly 100,000 terminal hair follicles on the scalp, which are predisposed to generate long and thick hair [4]. Hair grows in a precise cycle with three unique and concurrent phases: anagen (3 to 5 years), catagen (2 to 3 weeks), and telogen (3 to 4 months), followed by shedding. During the telogen or resting phase, hair is liberated and lost, and the following cycle begins at any moment [4-7]. Ninety percent of the hair on a healthy scalp is growing, with less than 1% experiencing involution and the remainder resting (5% to 10%) [8]. It is considered typical to shed 100 hairs from the head per day. However, a greater rate of physiological loss is a serious worry across the world because, if it continues to be excessive, it may develop into male or female pattern alopecia which causes

### Abstract

Humanity relies on plants to meet its basic needs, such as food, clothing, and shelter. Both rural and urban civilizations benefit from wild plants for medicinal, craft, and beauty purposes. *Murraya koenigii* Linn (Rutaceae), also known as Meethi Neem or Curry Patta, is a fragrant, usually deciduous shrub or small tree that can grow to be 6 meters tall. It may be found all throughout India and reaches heights of up to 1500 meters. It is cultivated for its fragrant leaves. In traditional medicine, it is used as an antiemetic, antidiarrheal, dysentery, febrifuge, blood purifier, tonic, stomachic, and flavoring agent in curries and chutneys. The essential oil derived from the leaves contains alkaloids such as mahanine, koenidine, koenigine, koenine, girinimilaine, girinimbolol, murrayamine, and several more.

Another plant Turmeric (*Curcuma longa* L.) belongs in the ginger family, which is native to Southwest India. Turmeric is a medicinal and fragrant plant that is recognized as one of nature's most valuable resources, with enormous export potential in medicine, personal care, culinary spices, and natural colours. An ethanolic extract of turmeric including curcumin, dimethoxy-curcumin, and bisdemethoxycurcumin has been shown to reduce blood glucose levels in mice and prevent blood glucose from rising. Reduces proteinuria and haematuria when taken orally in people with refractory lupus nephritis. Curcuminoid is the most abundant component in turmeric, along with many other phenolic compounds and mono-, sesqui-terpenes.

Soxhlet extraction combines both percolation and maceration techniques. The extraction is carried out using a particular device known as the Soxhlet apparatus, which was created by Franz von Soxhlet in 1879. It was one of the most popular extraction methods, and it is still commonly used today. The apparatus comprises of an extraction chamber linked to a vapor duct and a siphon tube that continues down to the joint, where a circular bottom shell may be attached. A thimble of filter paper or a cotton plug is put in the extraction chamber to prevent the siphon tube from being blocked when powdered medication material is introduced. In this extraction we will use the Soxhlet extraction method to extract the phytoconstituents of the respective plants.

ABSTRACT

**Background:** *Nyctanthes arbor-tristis* is a small ornamental tree renowned for its anti-diabetic activity. Being a rich source of all useful phytoconstituents, traditionally, it's also used in treating many other diseases. However, its role in curing diabetic neuropathy is still not clear. The main objective of this study is to investigate the potential effect of *Nyctanthes arbor-tristis* against streptozotocin (STZ)-induced diabetic neuropathy in rat.

**Method:** The study was planned with 36 animals and 6 animals in each group. Group 1 (Control group), Group 2 (Diabetic Control), Group 3 (Active Control), Group 4 (Test Group-1), Group 5 (Test Group-2) & Group-6 (Test Group-3). STZ (50mg/kg) was given intraperitoneally to induce diabetes in Albino wistar rats. After 21 days animals were assessed for diabetic neuropathy. Rats with diabetic neuropathy were treated for 3 weeks with methanolic extract of *Nyctanthes arbor-tristis* leaves & twigs (100,200,400mg/kg p.o.), Glibenclamide (10mg/kg p.o.) and amitriptyline (10mg/kg i.p.) were used as standard drug. Treatment outcomes were based on metabolic, physiological & biochemical changes.

**Result:** Treatment with methanolic extract of *Nyctanthes arbor-tristis* significantly decreases blood sugar levels and neuropathic pain as compared to the disease control

**Abstract.** Nanosuspension is a part of microtechnology which is a submicron colloidal dispersion of pharmaceutically active ingredients in a liquid phase having a size range below 1  $\mu$ m, and which is stabilized by surfactants and polymers. Most of the newly developed drugs are water-insoluble, show poor bioavailability. Glibenclamide is an anti-diabetic drug that belongs to the sulfonylurea class, which is used to treat type II diabetes mellitus. Glibenclamide increases insulin secretion by acting on the  $\beta$ -cells of the pancreas. Glibenclamide binds to sulphonylurea receptors which are present on  $\beta$ -cell on the plasma membrane, which close the ATP-sensitive potassium channel due to which there is an influx of calcium ions membrane. So there is the opening of voltage-gated calcium channel due to which there is an influx of calcium ions causes the secretion of the preformed insulin molecule. It is categorized under biopharmaceutical classification system class II drug, having poor solubility and high permeability. In this review, different methods were studied to formulate the nanosuspension of glibenclamide to increase the solubility of glibenclamide.

**Keywords-**Glibenclamide, Nanosuspension, Anti-Diabetic, Solubility, Polymers, Drug Delivery

## INTRODUCTION

Diabetes mellitus (DM) is a chronic, life-long endocrine, and metabolic disorder that occurs due to a defect in insulin secretion and insulin action. Insulin is the hormone that is produced by a specialized cell called  $\beta$ -cells present on the organ pancreas. Normally our body breakdown the carbohydrates and sugars which convert into glucose molecule and act as fuel for our body, but for utilization of glucose, hormones insulin is required. The deficiency of insulin leads to an increase in the blood glucose level in a body along with disturbances in the metabolism of carbohydrates, fats, and proteins. If diabetes is uncontrolled then it leads to severe diabetic complications like retinopathy, neuropathy, and various cardiovascular complications.

Abstract

Nephrotoxicity occurs when the renal blood is exposed to a nephrotoxic drug or toxin that causes damage to the kidneys. This may lead to acute kidney failure. In this condition the kidney function deteriorates and may lead to chronic kidney failure. If unchecked, the kidney failure may lead to the death. When kidney damage occurs, the kidney fails to remove excess urine and waste leading to retention of nitrogenous waste products of metabolism in the blood. The biochemical parameters commonly used to evaluate kidney function are serum urea, creatinine, uric acid, potassium, sodium and chloride. The animal models play a very important role for understanding the mechanism of nephrotoxicity and development of effective therapy for its optimal management. Since there are many pathways for induction of renal failure, therefore, a large number of animal models have been developed to produce the clinical conditions of renal failure. The present review will help to find an appropriate model to evaluate the new drug or molecule that can protect from nephrotoxicity.

Keywords: Animal, Model, Nephrotoxicity

Introduction

Nephrotoxicity can be defined as a renal disease or dysfunction produced by medication of drugs and other environmental factors and it is directly related to the (ARF) Acute renal failure (Lakshmi and Kiran, 2012) and (AKI) Acute renal injury is a reversible loss of function of renal cells in kidney that result in rapid fall in glomerular filtration rate (GFR) as well as retention of minerals and water (C. Late, 1996).

It has been found that drugs are responsible for 20% of all cases for (ARF) acute renal failure. Drug like antibiotics, anticancer, anti-inflammatory, NSAIDS, aminoglycoside exhibit and adverse effect on renal function and cause loss of immune system responses in the body. So

in recent time, interest in drug-induced nephrotoxicity has been increased with increasing number of drugs to affect the renal cells (Ganguli and Prakash, 2003; Ogunmowa, 2015).

Most of the drugs are found to be harmful nephrons produce one or more pathogenic mechanism in the kidney. Pathological conditions include: hemodynamic, changes tubular cells toxicity, nephritis syndrome, urinary tract infection, chronic interstitial nephritis, and (Singh *et al.*, 2014).

The present comprehensively required the methodology information regarding various animal models of nephrotoxicity.

## Abstract

Memory is the most significant factor in distinguishing one person from another, as it is necessary to recognise one's own self. The brain can encode, store, and retrieve information using three different types of memory. Individuals who lack these basic forms of memory are unable to create personal relationships, acquire new knowledge, and perform basic everyday duties. Memory refers to a person's ability to encode, store, retain, and recall knowledge and past events in his or her brain. Memory gives a person the ability to learn from and adapt to previous experiences, as well as the ability to recall previously taught facts, skills, and habits. Too little memory, weak recall, and low retention are all typical issues. Memory deteriorates primarily because of stress and exhaustion. Memory loss, often known as age-related memory impairment, is frequent in those over the age of 40. This could be linked to the loss of hormones and proteins (growth factors) that repair brain cells as people get older. Herbs were employed to improve memory power in India throughout ancient times. Indian and Chinese cultures developed many traditional medicines from herbs to treat diminishing cognition, reverse memory loss, and improve learning power. Nootropic herbs are known for their brain-acting herbs and smart medications, which are derived from their isolated ingredients and aid to improve blood circulation in the brain. The focus of this review is on natural agents and herbs that work as memory enhancers, by using one of the herbs at a time, one can improve his or her memory.

**Keywords:** Acetylcholine, Alzheimer's Disease, Herbs, Memory, Nootropics

## 1. Introduction

Memory is a typical learning ability that indicates long-term changes in the nervous system caused by short encounters. Short-term memory and long-term memory are the two types of memory. There are a variety of drugs available in the market for maintaining memory or enhancing memory but some of them have huge side effects also especially in the case of synthetic drugs. *Bacopa monnieri*, also called *Bacopa monnieri*, *Herpestis monnieri*, and *Brahmi*, has been used in Ayurvedic medicine for millennium<sup>2</sup> in the case of study about memory. The brain is the most important, the forebrain, midbrain,

and hindbrain are the three fundamental sections of the human brain. It includes the hypothalamus, thalamus, cerebellum, cerebral cortex, hippocampus, mid-brain, and several other glands, with the Hippocampus being important for memory. Memory is a very significant aspect for recalling situations, information, and experiences, but because of certain conditions like stress, negative emotions cause various illnesses such as amnesia, memory loss, high blood pressure, anxiety, and several serious life treatments in that individuals can record events, information, and stimuli over a time. Thus, over recent decades, herbs and natural cures are very useful in the promotion of intelligence such as *Memhya* herbs related

### Abstract

Diabetic foot complications aren't exactly a hot topic. Diabetic nephropathy, heart attack and stroke aren't as common as diabetic foot complications although they are still the most common complications of diabetes. As a result of diabetic foot infections and lesions, the majority of diabetics are hospitalised and require long-term hospitalizations. In the case of diabetic foot ulcers (DFUs), which can lead to amputations of the limb, as well as significant social, psychological, and economic effects. A DFU can develop in up to 25% of diabetic people throughout the course of their lives, and more than half of those patients become infected. As a result, in order to avoid undesirable results, infection and ulcer recovery must be carefully managed. Doctors and patients alike should be aware of the latest developments in DFU treatment. An overview of the current assessment and treatment options for DFUs is provided here in order to assist clinicians in making educated decisions, including molecular and regenerative medicine; energy-based antimicrobial therapies; plant extracts; antimicrobial peptides; growth factors; devices; and nanomedicine.

## An Update on Biodegradable Microspheres Loaded with Naltrexone

Madhu Bala \*, Akhil Moudgil, Sanjay Kumar

Gautam College of Pharmacy Hamirpur, Himachal Pradesh-177001, India.

ARTICLE INFO

ABSTRACT

Received: 04 Mar 2020

Accepted: 18 Apr 2020

The use of biodegradable polymers for microencapsulation of naltrexone using techniques like solvent evaporation is the need of the hour. The naltrexone microspheres for the preparation of matrix devices will help to understand the microencapsulation. Nowadays, the emphasis is being laid on the development of controlled release dosage forms. Interest in this technology has been increasing steadily over the past few years. Although the oral administration of drugs is a widely accepted route of drug delivery, the bioavailability of drugs often varies as a result of gastrointestinal absorption, biodegradation by the first-pass effect. There are many ways of achieving long-term drug delivery of parental origin; biodegradable microspheres are one of the better means of controlling the release of the drug over a long time. Likewise, emulsions, stability on a long-term basis, and in suspensions, rheological changes during filling, injecting, and storage possess a limiting factor. The extent of release rate in these systems cannot be tailor-made to the needs of the patient. Injectable formulations based on biodegradable microspheres can overcome these problems and can control the release of the drug over a predetermined period. In the order of days to weeks and even to the months. The effect of different process parameters, such as drug/polymer ratio and stirring rate during the preparation of microspheres, on the morphology, size distribution, and in vitro drug release of microspheres. The review mainly covers various molecules encapsulated in biodegradable microspheres for parenteral delivery.

**Keywords:** Biodegradable Microspheres, Naltrexone, polymers.

### 1. INTRODUCTION

Microspheres are characteristically free-flowing powders consisting of proteins or synthetic polymers, which are biodegradable and ideally having a particle size less than 200  $\mu\text{m}$  [1] and which can be injected by 18 or 20 number needle [2]. The drug absorption and side effects due to irritating drugs against the gastrointestinal mucosa are improved because the biodegradable microsphere is made up

## Antidiabetic Activity of Chemically Synthetic Compound on Alloxan Induced Diabetes in Mice

Akhil Moudgil\*, Sanjay Kumar, Madhu Bala

Gautam College of Pharmacy Hamirpur, Himachal Pradesh-177001, India.

ARTICLE INFO

ABSTRACT

Received: 04 Mar 2020  
Accepted: 20 Apr 2020

Alloxan a nitrofurane derivative is one of the most universally accepted diabetogenic agents. The selective  $\beta$ -cell toxicity of alloxan depends on the degree of DNA alkylation and subsequent activation of poly ADP ribose synthetase in the base excision repair pathway. This stimulated activation of poly ADP ribose synthetase triggers exhaustion of NAD<sup>+</sup> in the pancreatic islets that will lead to  $\beta$ -cell death through necrosis. In the present study, the objective was to study the evaluation of the antidiabetic activity of the chemically synthetic compound on alloxan-induced diabetes in mice. Chemically synthetic compounds were given to the mice after the administration of alloxan and glucose levels were estimated using a semi-auto analyser at a range of 505/670nm. The hyperglycaemic levels due to alloxan administration lead to the development of diabetes. Treatment with chemically synthetic compounds significantly lowers the elevated glucose levels in alloxan-induced diabetic mice. Hence compound number 1321,05152,0717 has potential antidiabetic activity. To explore further exhaustive study is required for the mechanism behind the anti-diabetic activity of their chemical compounds.

**Keywords:** Alloxan, diabetogenic agent, antidiabetic activity, hyperglycaemic levels.

### I. INTRODUCTION

Diabetes mellitus (DM), commonly referred to as diabetes, is a group of metabolic diseases in which there are high blood sugar levels over a prolonged period. Symptoms of high blood sugar include frequent urination, increased thirst, and increased hunger. If left untreated, diabetes can cause many complications. Acute complications include diabetic ketoacidosis and nonketotic hyperosmolar coma. Serious long-term complications include cardiovascular disease,

## MARKETING REGULATION OF DRUGS IN INDIA-REVIEW

**Dr. Narinder Nath Sharma**

Former Dean Academics HPTU Hamirpur (H.P.), Principal Government Degree College Jiwali (H.P.)

**Dr. Vipin Kumar Bhatia**

Assistant Professor, Himachal Pradesh Technical University, Hamirpur (H.P.)

**Mr. Sanjay Kumar**

Assistant Professor, Gustam College Hamirpur (H.P.)

### ABSTRACT

The pharmaceutical industry is one of the most regulated industries; no drug would be marketed without the teams of medical researchers and other specialists who worked to make sure it receives regulatory authority's approval. A regulatory authority is an agency of the government that is responsible for protecting public health in safety aspects. A approval of the drug product for import, manufacturing and marketing in India, its demonstration for safety and efficacy in humans is essential. The Rules 122A, 122B and 122D, 122 DA, 122DAA, 122E and Appendix I, IA and VI of Schedule Y of the Drugs & Cosmetics Act, 1945, describes the information/data required for approval of clinical trial and/or to import, manufacture, or market any new drug in the country. Marketing of drug products is major concern issue now days. So every country has its own guidelines and own regulatory bodies for any drug approval and for marketing of the drug products. India is emerging as an important player in pharmaceutical field, but to maintain this growth and to emerge as a key player on the global market, a strong and supportive regulatory framework is essential or the advantage gained so far would be lost.

### INTRODUCTION

The current global economic climate is placing tremendous pressure on pharmaceutical companies to maximize the value of their assets. Sponsors with novel therapies seek to speed up time-to-market and introduce their products in multiple countries as quickly as possible. Companies with established products want to increase sales by expanding into additional markets to offset impending patent expirations. Confronted with these marketplace challenges, no pharmaceutical company can afford first-round submission failures or other regulatory delays that prevent its products from reaching their targeted markets in a timely fashion. A proactive, regulatory filing strategy helps any pharmaceutical company large or small gets the most from its product portfolio by accelerating global product introductions while avoiding regulatory pitfalls. By understanding the differences in regulatory processes for countries around the world, and taking advantage of the Common Technical Document defined by the International Conference on Harmonization, pharmaceutical companies can significantly improve the speed and efficiency of preparing regulatory submissions while reducing the risk of costly delays.

### Drug Regulatory Affairs:

Regulatory Affairs in a Pharmaceutical industry, is a profession which acts as the interface between the pharmaceutical industry and Drug Regulatory authorities across the world. It is mainly involved in the registration of the drug products in respective countries prior to their marketing.

## ABSTRACT

A simple, accurate, economical and reproducible reverse phase high performance liquid chromatographic (RP-HPLC) method was developed and validated for the determination of Ambroxol and Levocetirizine in bulk and pharmaceutical formulations. The separation was achieved on a phenomenex C18 column (150 × 4.6 mm i.d. particle size of 5µ) using a mixture of 0.01M Potassium dihydrogen orthophosphate (pH 5.0 ± 0.05) & Acetonitrile (60:40 v/v) as mobile phase in an isocratic elution mode at a flow rate of 1 ml/min. The detection was monitored at 230 nm. The retention time of was found to be around 3.60min (Levocetirizine) 4.68min (Ambroxol) respectively. Excellent linearity range was found between 12-120 µg/ml for Ambroxol and 1-10µg/ml for Levocetirizine. The method was validated with respect to linearity, robustness, precision and accuracy and was successfully applied for the simultaneous determination of Ambroxol and Levocetirizine from the combined dosage formulation.

## 1. INTRODUCTION

Ambroxol (AMB) is chemically Trans-4-(2-Amino-3,5-dibromobenzylamino)-cyclohexan-1-ol AMB is Mucolytic, respiratory agent and used in the treatment of the upper respiratory tract diseases. With its mucolytic activity, AMB facilitates the breakdown of acid mucopolysaccharide fibres in the mucous thus making it thinner and less viscous for expectoration. As well it stimulates the production of pulmonary surfactant, a substance found to play a major role in the lung defense mechanism and thereby further protect it against inflammation and infection. Levocetirizine (LCTZ) is chemically (2-(4-((R)-(4-chlorophenyl) (phenyl)methyl)-piperazin-1-yl) ethoxy)acetic acid. Levocetirizine is a third generation non-sedative antihistamine developed from the second generation

antihistamine cetirizine. It is the R-enantiomer of the cetirizine which functions to block histamine receptors. More specifically, LCTZ does not prevent the actual release of histamine from mast cells but prevents its binding to its receptors. This in turn prevents the release of other allergy chemicals and increases the blood supply to the area providing relief from the symptoms of hay fever. Literature survey revealed that AMB and LCTZ has been estimated individually or in combination using UV, HPLC and HPTLC. The present work describes the development of a simple, precise, accurate and reproducible spectrophotometric method for the simultaneous estimation of AMB and LCTZ in Pharmaceutical dosage form.

## METHOD DEVELOPMENT AND VALIDATION FOR THE SIMULTANEOUS ESTIMATION OF IN ATORVASTATIN AND FENOFIBRATE BULK AND PHARMACEUTICAL DOSAGE FORM BY USING RP-HPLC METHOD

Poonam Talwan<sup>1</sup>, Sanjay Kumar<sup>2\*</sup> and Darsh Gautam<sup>1</sup>

<sup>1</sup>Himachal Institute of Pharmaceutical Education and  
Research, Hamirpur, Himachal Pradesh, India.

<sup>2</sup>Gautam College of Pharmacy Hamirpur,  
Himachal Pradesh, India.

### ABSTRACT

A simple, accurate, economical and reproducible reverse phase high performance liquid chromatographic (RP-HPLC) method was developed and validated for the determination of Atorvastatin and Fenofibrate in bulk and pharmaceutical formulations. The separation was achieved on a Thermo Scientific BDS C18 column (250 × 4.6 mm id 5μ) using a mixture of 25mM Sodium acetate (pH adjusted to 5.0 With 1.0 M Glacial acetic acid) Acetonitrile (10:90 % v/v) as mobile phase in an isocratic elution mode, at a flow rate of 1 ml/min. The detection was monitored at 254 nm. The retention time of Atorvastatin and Fenofibrate was found to be around 2.672±0.05 min (Atorvastatin) 4.971±0.07 min (Fenofibrate) respectively. Excellent linearity range was found between 1-5 μg/ml for Atorvastatin and 1-5 μg/ml for Fenofibrate. The method was validated with respect to linearity, robustness, precision and accuracy and was successfully applied for the simultaneous determination of Atorvastatin and Fenofibrate from the combined dosage formulation.

### 1. INTRODUCTION

Atorvastatin (ATOR) is chemically 7[2(4-fluorophenyl)3-phenyl-4-(phenyl carbamoyl)-5-(propan-2-yl)-1H-pyrrol-1-yl]-3,5-dihydroxyheptanoate. Atorvastatin is a HMG-CoA reductase inhibitor acts as anti-hyperlipidemic drug clinically effective drug in the treatment of Hypercholesterolemia. It is insoluble in methanol, ethanol, and acetonitrile. Practically insoluble in water. Fenofibrate (FENO), propan-2-yl 2-[(4-(4-chlorophenyl)carbonyl)phenoxy]-2-methylpropanoate is a widely used as anti-cholesteremic agent as PPAR receptor inhibitor. Atorvastatin and Fenofibrate is available in combined dosage forms as film coated tablets (LIPIKIND). Each tablet contains 10mg of Atorvastatin and 160 mg of Fenofibrate. It is used for the treatment of Hypercholesterolemia.

For this combination derivative spectroscopic methods and reverse phase liquid chromatographic methods are reported. However, there is no work reported on combination of these drugs by standard addition simultaneous equation method. Hence fast, simple, and accurate and validated spectrophotometric method was developed by standard addition of both drugs by applying simultaneous equation method, the developed method was simple, accurate, precise, specific, sensitive and reproducible which can be efficiently and easily applied to pharmaceutical dosage forms.

<sup>2</sup>Himachal Institute of Pharmaceutical Education and Research,  
Hamirpur, Himachal Pradesh, India.

### ABSTRACT

The aim of this present investigation was to develop a rapid dissolving oral polymeric film, using the solvent casting method, having good mechanical properties, instant disintegration and dissolution, an acceptable taste in the oral cavity. Mirtazapine is a tetracyclic antidepressant drug mainly in patients affected by depression. The present investigation was undertaken with the objective of formulating of the Mirtazapine rapid dissolving oral thin films allowing fast reproducible drug dissolution in oral cavity thus bypassing first pass metabolism, to enhance the convenience and compliance by the elderly and pediatric patients. Nine formulation of films with drug were prepared using both natural and synthetic polymers like HPMC E6 and Sodium Alginate. Propylene glycol was used as plasticizers. Citric acid was used as a saliva stimulating agent. Synthetic Aspartame was used as sweetening agent. The resultant films were evaluated for weight variation, assay, content uniformity, folding endurance, thickness, tensile strength, percent elongation, surface pH, *in vitro* disintegration and *in vitro* dissolution. The F4 formulation showing the best results, the disintegration time is only 3.5 second and was releasing upto 100.8% of drug within 20 minutes.

Keywords: Mirtazapine, solvent casting method, Oral thin film and HPMC E6.

### INTRODUCTION

More recently, fast-dissolving films are gaining interest as an alternative to fast-dissolving tablets to definitely eliminate patients' fear of choking and overcome patent impediments. Fast-dissolving films are generally constituted of plasticized hydrocolloids or blends made of thereof that can be laminated by solvent casting or hot-melt extrusion.

The oral route is one of the most preferred routes of drug administration as it is more convenient, cost effective, and ease of administration lead to high level of patient compliance. The oral route is problematic because of the swallowing difficulty for pediatric and geriatric patients who have fear of choking. Patient convenience and compliance oriented research has resulted in bringing out safer and newer drug delivery systems. Recently, fast dissolving drug delivery systems have started gaining

popularity and acceptance as one such example with increased consumer choice, for the reason of rapid disintegration or dissolution, self-administration even without water or chewing.

Mirtazapine is a tetracyclic antidepressant used mainly in patients affected by depression<sup>1,2</sup>. The novel antidepressant mirtazapine has a dual mode of action. It is a noradrenergic and specific serotonergic antidepressant (NaSSA) that acts by antagonizing the adrenergic  $\alpha_2$ -autoreceptors and  $\alpha_2$ -heteroreceptors as well as by blocking 5-HT<sub>2</sub> and 5-HT<sub>3</sub> receptors<sup>3,4</sup>. It enhances, therefore, the release of nor epinephrine and 5-HT<sub>1A</sub>-mediated serotonergic transmission. Increased activation of the central 5-HT<sub>1A</sub> receptor is thought to be a major mediator of efficacy of Mirtazapine. This dual mode of action may conceivably be responsible for mirtazapine's

## ABSTRACT

Particle size characterization is a area of analytical chemistry which is required in a great number of industries where the product's end-use is affected by particle size distribution. The particles can be in the form of solids, liquids, or gases or an aggregation of molecules as in the case of micelles. Particularly in some instances, especially in the area of pharmaceuticals, limited forms, analyses are done to ensure the absence of particulate matter in the product. Particle size characterization helps in monitoring the environment accurately for particulate matter as well as particle size distributions, concentrations for full assessment of health hazard substances. The growing interest in particle size characterization and analysis, especially among analytical chemistry researchers, the subject is mainly emphasized on the application. The number of techniques available for particle size analysis is confounding. More than 200 methods have been reported by the analytical researchers for understanding and assessing the particle size. Because of the broad scope of this area in terms of techniques and analytical approaches, products, and size ranges major technique areas have been discussed which have received the most attention in recent years: radiation scattering and chromatographic techniques. The new and growing areas are rapidly becoming techniques of choice especially for the final analysis of submicrometer particles.

**Keywords:** Particle Size Characterization, Analytical Technique, Size, Chromatographic techniques

## 1. INTRODUCTION

Particle size characterization techniques currently in use within pharmaceutical industry and academia. It assumes no prior knowledge of particle characterization theory or instrumentation and should be ideal for those new to particle

AFFIDAVIT

I, Jagdish Gautam, aged 83 years Managing Director of Gautam group of Colleges R/O Ward No 10 Hamirpur HP, do hereby solemnly affirm and declare that I am starting the scholarship for students in the memory of my wife Late Smt. Kamla Devi.

The aim of scholarship is to provide financial assistance to meritorious and deserving students who display a commitment to academic excellence and need financial support to continue their studies.

Eligibility Criteria:

1. The scholarship is open to all students enrolled in the any course of Gautam group of Colleges.
2. Selection criteria include academic performance, Merit cum Mean, and personal circumstances.
3. A committee appointed by the college will review applications and make decisions based on the established criteria.

Application Process:

1. Eligible students are required to submit a completed application form along with supporting documents such as academic transcripts, income certificate, and a personal statement.
2. The deadline for application submission will be announced annually by the college.

I hereby declare that the above statements are true to the best of my knowledge and belief. I understand that any false information provided in this affidavit may result in the revocation of the scholarship and other disciplinary actions.

## Academic Research Incentive Policy

### 1. Purpose

The purpose of this policy is to promote and encourage academic research within the Gautam Group of Colleges. This policy aims to recognize and reward faculty members and students who contribute significantly to research activities, thereby enhancing the institution's academic reputation and fostering a culture of innovation and inquiry.

### 2. Objectives

- 2.1. To encourage faculty and students to engage in high-quality research activities.
- 2.2. To provide financial and non-financial incentives for published research.
- 2.3. To support and enhance the research infrastructure and resources available to researchers.
- 2.4. To foster interdisciplinary and collaborative research efforts.

### 3. Eligibility

- 3.1. Faculty members, research scholars, and students who have conducted research and published their work in recognized journals, conferences, or other reputable platforms.
- 3.2. Research work that aligns with the institution's academic goals and contributes to the advancement of knowledge in the respective field.

### 4. Incentives

#### 4.1 Financial Incentives:

##### 4.1.1 Publication in Indexed Journals:

- 4.1.1.1 Faculty members and students who publish research papers in Scopus-indexed or Web of Science-indexed journals will receive a monetary reward.

##### 4.1.1.2 Additional bonuses for publications in high-impact factor journals.

#### 4.2 Conference Presentations:

- 4.2.1 Financial support for travel and accommodation to present research at national and international conferences.

##### 4.2.2 Monetary reward for papers presented at prestigious conferences.

#### 4.3 Research Grants:

- 4.3.1. Faculty members can apply for internal research grants to support their research projects.
- 4.3.2. Additional funds for projects that secure external funding.

#### 4.4 Non-Financial Incentives:

##### 4.4.1 Recognition and Awards:

- 4.4.1.1 Annual awards for outstanding research contributions.
- 4.4.1.2 Certificates of recognition for significant research achievements.

##### 4.4.2 Research Support:

- 4.4.2.1 Access to advanced research facilities and resources.
- 4.4.2.2 Administrative support for research-related activities.

##### 4.4.3 Professional Development:

- 4.4.3.1 Opportunities for faculty to attend workshops, seminars, and training programs related to research and publication.

Director cum Principal  
Gautam College of Pharmacy  
Hamirpur (H.P.)

## Application Process

### Submission:

Researchers must submit their research work along with proof of publication or conference presentation to the Research Committee.

### Review:

1. The Research Committee will review the submissions based on the quality and impact of the research.

### Approval:

1. Approved applicants will be notified and provided with the details of the incentive disbursement.

## Monitoring and Evaluation

1. The Research Committee will monitor the implementation of this policy and evaluate its effectiveness annually.

2. Feedback from faculty and students will be gathered to improve and update the policy as needed.

## Responsibilities of Research Committee:

7.1. To oversee the application and evaluation process.

7.2. To ensure fair and transparent distribution of incentives.

7.3. To actively engage in research activities and adhere to ethical standards.

7.4. To submit accurate and timely documentation for incentive applications.

## 8. Review and Amendments

8.1 This policy will be reviewed periodically and may be amended as necessary to reflect the evolving research landscape and institutional goals.

Director cum Principal  
Gautam College of Pharmacy  
Hamirpur (H.P.)

Gautam College of Pharmacy is guided by principles of ethical conduct, professionalism, and Integrity: Faculty, staff, and students maintain high standards of ethical behaviours in all academic pursuits, clinical practice, and research endeavours to act as role models for others to follow in the pharmacy profession about ethical leadership. Along with this, in their spirit of serving the college, the Gautam Educational Society offers scholarships to meritorious students. The endowment scheme not only gives out excellence in academics but also makes education affordable for the needy, helping out students who are free from the financial burden of their parents and can go wherever and whenever they want. This is where Gautam College of Pharmacy imbibes the values of ethical leadership and supports them in reality through scholarships to the lives that promise to develop in actual professional beings, excellent not only in academics but also ethically and socially effective.

AFFIDAVIT

I, Jagdish Gautam, aged 53 years Managing Director of Gautam group of Colleges R/O Ward No 10 Hamirpur HP, do hereby solemnly affirm and declare that I am starting the scholarship for students in the memory of my wife Late Smt. Kamla Devi.

The aim of scholarship is to provide financial assistance to meritorious and deserving students who display a commitment to academic excellence and need financial support to continue their studies.

Eligibility Criteria:

1. The scholarship is open to all students enrolled in the any course of Gautam group of Colleges.
2. Selection criteria include academic performance, Merit cum Mean, and personal circumstances.
3. A committee appointed by the college will review applications and make decisions based on the established criteria.

Application Process:

1. Eligible students are required to submit a completed application form along with supporting documents such as academic transcripts, income certificate, and a personal statement.
2. The deadline for application submission will be announced annually by the college.

I hereby declare that the above statements are true to the best of my knowledge and belief. I understand that any false information provided in this affidavit may result in the revocation of the scholarship and other disciplinary actions.

## Academic Research Incentive Policy

### 1. Purpose

The purpose of this policy is to promote and encourage academic research within the Gautam Group of Colleges. This policy aims to recognize and reward faculty members and students who contribute significantly to research activities, thereby enhancing the institution's academic reputation and fostering a culture of innovation and inquiry.

### 2. Objectives

- 2.1 To encourage faculty and students to engage in high-quality research activities.
- 2.2 To provide financial and non-financial incentives for published research.
- 2.3 To support and enhance the research infrastructure and resources available to researchers.
- 2.4 To foster interdisciplinary and collaborative research efforts.

### 3. Eligibility

- 3.1 Faculty members, research scholars, and students who have conducted research and published their work in recognized journals, conferences, or other reputable platforms.
- 3.2 Research work that aligns with the institution's academic goals and contributes to the advancement of knowledge in the respective field.

### 4. Incentives

#### 4.1 Financial Incentives:

##### 4.1.1 Publication in Indexed Journals:

- 4.1.1.1 Faculty members and students who publish research papers in Scopus-indexed or Web of Science-indexed journals will receive a monetary reward.
- 4.1.1.2 Additional bonuses for publications in high-impact factor journals.

##### 4.1.2 Conference Presentations:

- 4.2.1 Financial support for travel and accommodation to present research at national and international conferences.
- 4.2.2 Monetary reward for papers presented at prestigious conferences.

#### 4.3 Research Grants:

- 4.3.1 Faculty members can apply for internal research grants to support their research projects.
- 4.3.2 Additional funds for projects that secure external funding.

### 5. Non-Financial Incentives:

#### 5.1 Recognition and Awards:

- 5.1.1 Annual awards for outstanding research contributions.
- 5.1.2 Certificates of recognition for significant research achievements.

#### 5.2 Research Support:

- 5.2.1 Access to advanced research facilities and resources.
- 5.2.2 Administrative support for research-related activities.

#### 5.3 Professional Development:

- 5.3.1 Opportunities for faculty to attend workshops, seminars, and training programs related to research and publication.

  
Director cum Principal  
Gautam College of Pharmacy  
Hamirpur (H.P.)

### Application Process Submission:

Researchers must submit their research work along with proof of publication or conference presentation to the Research Committee.

The Research Committee will review the submissions based on the quality and impact of the research.

### Approval:

1. Approved applicants will be notified and provided with the details of the incentive disbursement.

### Monitoring and Evaluation

The Research Committee will monitor the implementation of this policy and evaluate its effectiveness annually.

Feedback from faculty and students will be gathered to improve and update the policy as needed.

### Responsibilities of Research Committee:

1. To oversee the application and evaluation process.
2. To ensure fair and transparent distribution of incentives.
3. To actively engage in research activities and adhere to ethical standards.
4. To submit accurate and timely documentation for incentive applications.

### Review and Amendments

1. This policy will be reviewed periodically and may be amended as necessary to reflect the evolving research landscape and institutional goals.

# **GAUTAM COLLEGE OF PHARMACY**

**Industry Collaborations**

The college maintains strong partnerships with pharmaceutical companies, healthcare institutions, and regulatory agencies, providing students with valuable industry insights, internships, and career opportunities. These collaborations ensure that the college's curriculum remains relevant and responsive to the evolving needs of the healthcare sector. Collaborations with industry partners through Memorandums of Understanding (MOUs) not only enrich students' academic experience but also provide opportunities to apply theoretical knowledge to real-world problems. Through consultancy projects undertaken in collaboration with industry, students gain practical insights into pharmaceutical practices and contribute to solving industry challenges.

## MEMORANDUM OF UNDERSTANDING

between

### GAUTAM GROUP OF COLLEGES

(GGC)

Hamirpur, HP, India

and

### THE PENNSYLVANIA STATE UNIVERSITY

Lehigh Valley Campus

Center Valley, Pennsylvania, United States of America

THIS MEMORANDUM OF UNDERSTANDING ("MOU") is made and entered into as of the date of last signature by and between Gautam Group of Colleges (GGC) and The Pennsylvania State University, on behalf of its Lehigh Valley Campus ("Penn State" and, together with "GGC", each a "Party" and together, the "Parties").

WHEREAS, GGC and Penn State desire to explore potential research, teaching, and educational opportunities through which the Parties may collaborate; and

WHEREAS, the Parties desire to enter into this MOU for the purpose described above.

NOW THEREFORE, the Parties hereby agree to the following:

1. Scope. Consistent with applicable law, the Parties' respective policies, and subject to the terms of this MOU, the Parties will explore engaging in the following types of collaboration, which must be mutually agreed upon in each such case:

- Professional training programs;
- Faculty and scholar exchanges;
- Joint research projects and educational programs;
- Exchange of scientific materials, publications and information; and/or
- Developing and conducting joint seminars and other academic events.

2. Activities under this Memorandum of Understanding. Activities taking place under this MOU will be initiated primarily by academic units within each Party, and in coordination with their respective administrative units concerned with international activities. All activities undertaken must conform to the policies and procedures in place at each Party. Teaching beyond occasional lectures must be approved by the appropriate units within each Party.

3. Planning, Management, and Funding of Activities. Each distinct area of collaboration or activity will require a separate written agreement. Collaborating units are encouraged to work

together to identify and secure outside funding as needed. Financial arrangements and obligations for each activity shall be stipulated in a separate agreement prior to the initiation of any such activity.

4. Nondiscrimination. Penn State is committed to equal access to programs, facilities, admission and employment for all persons, including without limitation, equal access to programs, facilities, admission, and employment without regard to personal characteristics not related to ability, performance, or qualifications as more fully set forth in applicable Penn State policies. Subject to applicable law, the Parties shall abide by the foregoing principles of nondiscrimination and equal access in the administration of all programs and agreements described in this Agreement, and neither Party shall impose criteria on any scholars, faculty, students or staff which would violate these principles of nondiscrimination. Nothing herein shall be deemed to create any obligation for either Party to violate any applicable law, statute, code or guideline in order to provide such access.

5. Intellectual Property Rights. This MOU is only intended to address research and academic cooperation and does not, nor shall it be construed to, cover the generation of intellectual property. Any intellectual property generated shall be covered under a separate agreement.

6. Export Control. The Parties hereby acknowledge that performance and obligations hereunder may be subject to applicable export laws, and, to the extent such controls are applicable, performance of some desired activities under this MOU may be delayed, restricted or prohibited. Neither Party shall have any obligation to obtain clearances to perform any function, activity, effort, proposal or program which is deemed by such Party to be restricted by applicable export laws, and any refusal to perform such function, activity, effort, proposal or program as a result of a decision not to obtain necessary clearances shall not constitute a breach of this MOU.

7. Use of Name, Logo, and Mark. Neither Party may use the name, logo, or mark of the other in any promotional or advertising material (including but not limited to website postings, public announcements and program brochures) without the prior written consent of the other Party pursuant to each Party's policies.

8. Evaluation of Collaboration. All specific programs or projects undertaken pursuant to this MOU will be subject to mutual periodic evaluation by each Party's appropriate stakeholders.

9. Execution; Counterparts. This MOU may be executed in any number of counterparts, each of which shall be deemed to be an original, and all of which together shall be deemed to be one and the same agreement or document. Signatures and signed copies of this MOU transmitted by facsimile, email or other means of electronic transmission shall constitute effective execution and be deemed to have the same legal force and effect as delivery of an original executed copy of this MOU for all purposes.

10. Term, Amendment, Renewal, Termination. This MOU will become effective on the date of the last signature, for a period of 5 years. It constitutes the entire agreement between the Parties

and may only be amended or renewed in writing signed by authorized representatives of both Parties. Each Party shall have the right to terminate this MOU by providing written notice to the other Party at least thirty (30) days prior to the effective date of termination.

IN WITNESS WHEREOF, this Memorandum of Understanding has been executed by the Parties as of the last day written below:

### MEMORANDUM OF UNDERSTANDING

Gautam College of Pharmacy, Hamirpur (H.P.)  
&  
Amritsar Group of Colleges, Amritsar (PB)

The MEMORANDUM OF UNDERSTANDING entered into on the 20<sup>th</sup> day of April, 2024

BETWEEN

Gautam College of Pharmacy, Hamirpur, through its Director or Principal Dr. Sanjay Kumar for Gautam College of Pharmacy, Hamirpur, having expertise in the areas of scientific, Pharmaceutical education and research, affiliated college of HPTU as the First Part.

The Amritsar Group of Colleges, Amritsar (Pharmaceutical Sciences Department) (PB) Through the Principal (Pharmacy) Dr. Sarabjot Singh Anand, having expertise in the areas of scientific, Pharmaceutical education and research, as the Second Part.

WHEREAS, Gautam College of Pharmacy, Hamirpur and Amritsar Group of Colleges, Amritsar (Pharmaceutical Sciences) have many areas of common interest in Pharmacy and Sciences, considerable advantage may be gained from their pursuit on a collaborative basis in the fields of academics, education and research.

NOW THEREFORE Gautam College of Pharmacy, Hamirpur and Amritsar Group of Colleges, Amritsar (Pharmaceutical Sciences) have decided to enter into this Memorandum of Understanding (hereinafter referred to as MoU), which defines the framework for the cooperation of the two institutions set out in the following sections.

#### ARTICLE I: OBJECT

Both Institutes agree to develop the following collaborative activities in the academic areas of mutual interest, on a basis of equality and reciprocity.

The two institutions shall seek to promote

#### a. Faculty/Scientist/Staff Exchanges

- (i) The exchange of faculty to the mutual benefit of both institutions.
- (ii) Collaboration in teaching, research and development, and consultancy studies in the field of mutual interest.

Hamirpur (H.P.) - 177001

7554 Date 01-05-21  
Name Dr. Sanjay Kumar  
Vill/ Ward  
State of : STATE OF RAJASTHAN  
437

- (iii) The exchange of academic materials and publications.
- (iv) Conducting lectures.
- (v) Undertaking joint research.
- (vi) Attachment of staff for purposes of curriculum development and review, attendance of courses, upgrading of teaching and research skills.
- (vii) Participating in seminars, symposiums, and other types of academic discussions.
- (viii) Co-supervising post graduate / Doctoral Students.
- (ix) Conducting study tours and joint consultancy work.

A specific plan will be worked out for each activity; setting forth detailed arrangements for collaboration will be agreed. Terms and conditions for each visit or an assignment or such exchange, including those concerning salary, travel funding and housing will be worked out between the institutes. A separate agreement will be entered into giving such details including term of exchange of any intellectual property.

## ARTICLE II: COORDINATION

Each institution shall appoint one member of its teaching/research faculty to coordinate the programme on its behalf. Further, a coordination committee consisting of a programme coordinator from the side of Gautam College of Pharmacy, Hamirpur, and a programme coordinator from the side of Amritsar Group of Colleges, Amritsar (Pharmaceutical Sciences) (PB), will periodically review and identify ways to strengthen cooperation between the two institutions.

## ARTICLE III: CONFIDENTIAL INFORMATION

Gautam College of Pharmacy, Hamirpur and Amritsar Group of Colleges, Amritsar (Pharmaceutical Sciences) Both does not absolve any confidential information during the research activity.

## ARTICLE IV: INTELLECTUAL PROPERTY RIGHTS

Ownership of any intellectual property (including but not limited to confidential information, know-how, patents, copyrights, design rights, rights relating to computer software, and any other industrial or intellectual property rights) developed jointly during the course of this MOU shall be vested in both institutes to this Memorandum.

Both institutes shall have the joint right to determine the commercial exploitation and disposition of such intellectual property, and both institutes shall make joint applications for the registration of the same. Before any registration or commercialization of any intellectual property takes place, the institutes agree to reach a separate agreement covering issues such as exploitation rights and-revenue sharing.

Gautam College of Pharmacy  
Hamirpur (H.P.)-177001

Any publication regarding such intellectual property shall only be possible with the prior written consent of both institutes, such consent not to be unreasonably withheld.

Gautam College of Pharmacy, Hamirpur or Amritsar Group of Colleges, Amritsar (Pharmaceutical Sciences) (PB) shall be free to use perpetually the results arising out of the collaborating activities for its own internal teaching, research, educational, clinical and publication purposes without the payment of royalties or other fees to the other party.

#### ARTICLE V: VALIDITY

The Memorandum shall remain in force for a period of FIVE years commencing from effective date. Institutions may extend the term by written agreement signed by both after review.

#### ARTICLE VI: TERMINATION

Either institution may terminate the MoU by giving written notice of SIX MONTHS in advance to the other institution. Once terminated, neither Gautam College of Pharmacy, Hamirpur nor Amritsar Group of Colleges, Amritsar (Pharmaceutical Sciences) (PB) will be responsible for any losses, financial or otherwise, which the other institutions may suffer.

However, Gautam College of Pharmacy, Hamirpur and Amritsar Group of Colleges, Amritsar (Pharmaceutical Sciences) (PB) will ensure that the provisions of this Memorandum shall continue to apply to all activities in progress until their completion.

#### ARTICLE VII: AMENDMENTS/MODIFICATIONS

This MoU may be amended or modified by a written agreement signed by the representatives of both institutes.

#### ARTICLE VIII: ADHERENCE TO LAWS

Participating faculties, staff and students involved in any activities under this Memorandum must adhere to the law of the host countries and rules and regulations of the institutions.

#### ARTICLE IX: LEGAL EFFECT

Nothing in this Memorandum shall be construed as creating any legal relationship between the institutes. This Memorandum is a statement of intent to foster genuine and mutually beneficial collaboration.

#### ARTICLE X: DISPUTE RESOLUTION

In case, there is a dispute relating to any aspect of academic cooperation, Director cum Principal, Gautam College of Pharmacy, Hamirpur and Amritsar Group of Colleges, Amritsar (Pharmaceutical Sciences) (PB) will jointly resolve the dispute in a spirit of independence, mutual respect, and shared responsibility.

  
Gautam College of Pharmacy  
Hamirpur  
2001

Gautam College of Pharmacy, Hamirpur and Amritsar Group of Colleges, Amritsar (Pharmaceutical Sciences) (PB) welcome the establishment of this Memorandum for cooperation and jointly agree to the provisions as set out above.

IN WITNESS WHEREOF, the parties here to have executed this indenture (MOU) the day the year First here in above written.

## MEMORANDUM OF UNDERSTANDING (MoU)

BETWEEN

AMAR SHAHEED BABA AJIT SINGH JUHAR SINGH MEMORIAL  
COLLEGE OF PHARMACY, BELA (Ropar)  
(An Autonomous College)  
AND

GAUTAM COLLEGE OF PHARMACY HAMIRPUR (H.P)-177001

This Memorandum of Understanding (MoU) is entered into this 11th day of March, 2023 between Amar Shaheed Baba Ajit Singh Juhar Singh Memorial College of Pharmacy, Bela (COP-BELA) and Gautam College of Pharmacy Hamirpur (GCOP)

This expression of COP-BELA and GCOP and shall, however, mean and include the institutions, organizations, their successors' appointee, assignees etc. Both the organizations have decided to sign the present MoUs which will be governed by the clauses and conditions below.

### Section 1

#### OBJECTIVE

COP-BELA and GCOP agree to promote co-operation, in areas of mutual interest through appropriate means as follows-

- Mutual training of students and researchers.
- COP-BELA and GCOP will collaborate with each other for research, development and training facilities.
- Promotion of educational training and research activities.
- Exchange of scientific information and academic publications.
- Holding of lectures and workshop for mutual benefit in the area of common interest. Promote or Participate in the seminars, conferences, conventions organized by the Institute in the areas of Education and Research.

### Section 2

#### HOW TO OPERATE

The operation of the present Protocol shall happen through the collaboration of specific projects/programs agreed by the parties involved, taking into account all the legal requirements.

### Section 3

#### PERFORMANCE

In each specific case of co-operation, the parties involved should prepare a written work programme related to the ways with specific measures for the implementation of the objectives. In order to execute the projects, programmes, student exchanges, or joint activities, the parties involved will enter into specific agreements establishing the aims, actions, the financial implications, deadlines, physical and or human resources, as well as any other obligation to be carried out in the conformity with the relevant legislation.

### Section 4

#### RESOURCES

It is recognized that the implementation of the present Protocol will in each case depend upon the availability of necessary resources, either from within the institutions concerned or from external source

Director  
Gautam College of Pharmacy  
Hamirpur (H.P.)-177001

3/12/23

Each party will make every effort to raise funds from diverse sources in order to make possible the initial programmes. Any programme prepared according to section 2 will only be realized after the appropriate resources have been allocated.

#### **Section 5 CO-ORDINATION**

For specific agreement, each of the interested parties will choose a co-coordinator who will serve as a contact and resolve issues relating to the specific agreement.

#### **Section 6 INTELLECTUAL PROPERTY**

Each Party shall respect to the intellectual property rights of the other Party. All pre-existing intellectual property rights shall continue to belong to and vest in the Party that owns the same. The Parties agree that they will enter into separate collaboration agreements regarding the actual research collaboration, stems from this MoU. In such collaboration/ agreements the Parties will decide mutually on the ownership of any intellectual property rights of other results generated in the research project as per norms.

#### **Section 7 VALIDITY**

This Protocol has the validity of five (5) years from the date of signing, and either party, can cancel it by providing 30 (thirty) days written notice in advance to the other party. The MoU will be renewed after 5 years.

#### **Section 8 ALTERATIONS**

The present Protocol can be amended by mutual written agreement of the two parties.

#### **Section 9 SETTLEMENT OF DISPUTE**

That any dispute arising out of this MoU or in its enforcement, the concerned parties to this MoU will resolve the same amicably. However, in case the dispute remains unresolved it shall be referred to an arbitrator appointed by mutual consent of both the parties subject to the jurisdiction of court Chandigarh. The decision of the authority shall be final and binding upon the parties concerned.

**IN WITNESS WHEREOF**, both the parties herein set their respective hands on the day, month and year in the presence of the following witnesses:

**Prof. (Dr.) Shailesh Sharma**  
Director  
ASBASISM  
College of Pharmacy,  
BELA (Ropar)

**Prof. (Dr.) J. S. Badhan**  
Director  
Gautam College of Pharmacy

Gautam College of Pharmacy  
Hamirpur (H.P.)-177001

... and profit ... whether in ... or other ... of law, even if TCS has been advised of the possibility of such damages. The total cumulative liability of TCS under this Agreement shall not exceed in aggregate the amount paid by TCS to the LISP under the Agreement.

**7. Confidential Information:** - Each Party receiving the Confidential Information (the "Receiving Party") acknowledges and agrees to maintain the confidentiality of Confidential Information provided by the other Party (the "Disclosing Party") hereunder. The Receiving Party shall not disclose or disseminate the Disclosing Party's Confidential Information to any person other than those employees, agents, contractors, subcontractors and licensees of the Receiving Party, or its affiliates, who have a need to know it, in order to assist the Receiving Party in performing its obligations, or to permit the Receiving Party to exercise its rights under this Agreement. The provisions of this Clause with respect to Confidential Information shall not apply to the extent that such Confidential Information is: (a) already known to the Receiving Party, (b) subsequently learned from an independent third party free of any restriction and without breach of this provision, (c) is or becomes publicly available through no wrongful act of the Receiving Party or any third party, (d) is independently developed by the Receiving Party without reference to or use of any Confidential Information of the Disclosing Party or (e) is required to be disclosed pursuant to an applicable law, rule, regulation, government requirement or court order, or the rules of any stock exchange. Upon the Disclosing Party's written request at any time, or following the completion or termination of this Agreement, the Receiving Party shall promptly return to the Disclosing Party, or destroy, all Confidential Information of the Disclosing Party provided under or in connection with this Agreement, including all copies, portions and summaries thereof.

**8. Intellectual Property Rights:** - LISP agrees that TCS Application System, deliverables and work products created or developed by TCS or its employees, representatives etc. using TCS Application System and/or Facilities under this Agreement, together with any associated copyright and other intellectual property rights, shall be the sole and exclusive property of TCS. TCS is allowed to use the name and address of the LISP which may be necessary to render the Services to its Customers.

**9. Termination - (9.1) Termination for convenience by TCS:** TCS is entitled to terminate this Agreement by giving fifteen (15) days prior written notice to the LISP. It is acknowledged and agreed between the Parties that LISP does not have right to terminate this Agreement for convenience. In the event if LISP terminates this Agreement for convenience, the same shall be construed as material breach of this Agreement and TCS shall have the right to claim appropriate damages under the Law and this contract.

**(9.2) Termination for Material Breach:** Either Party may terminate this Agreement immediately by a written notice to the other Party in the event of a material breach which is not cured within thirty days of the receipt of the said notice period. Failure of LISP to abide by the Service Levels and

IN WITNESS WHEREOF, the Parties hereto have caused this Agreement to be executed by their duly authorized representatives

GAUTAM GROUP OF COLLEGES

Title: Principal

(Small of access by LISP to TCS on the Facilities shall be treated as material breach and the Agreement shall immediately be terminated by TCS

**(10.3) Effect of termination:** Either party shall return to other party any of other party's confidential and proprietary information and material in its possession. LISP agrees that in the event of expiry or termination of this Agreement for any reason any accepted and unexecuted Work Order shall be executed by the LISP and all the obligations under such Work Order shall be performed by the LISP.

**10. Miscellaneous:** - (10.1) Independent Contractors and Assignments: LISP shall not assign or transfer this Agreement or any obligations hereunder to any third party, without the prior written consent of TCS.

**(10.2) Change Request:** Any changes to this Agreement shall be in the form of change order ("Change Request") as attached in Schedule 4 and shall be signed by both Parties.

**(10.3) Governing Law, Dispute Resolution and Jurisdiction:** This Agreement shall be governed by and interpreted in accordance with the laws of India. All disputes arising between the Parties, out of this Agreement shall be referred for arbitration to a sole Arbitrator to be mutually agreed upon and proceedings shall be governed by the Arbitration and Conciliation Act 1996. The venue and seat of arbitration shall be Mumbai. Subject to arbitration, the courts in Mumbai shall have exclusive jurisdiction.

**(10.4) TCS Supplier Code of Conduct:** The business engagement of TCS with the LISP is regulated by and interpreted in accordance with the TCS Supplier Code of Conduct. All agencies dealing with TCS like the LISP herein are also bound by the said TCS Supplier Code of Conduct. The LISP agrees to at all times abide by the said Code and shall promptly inform TCS of any breach or threatened breach of the Code by any person by informing to the Local Ethics Counselor or the Principal Ethics Counselor or the CEO of TCS. In turn, undertakes that it will maintain confidentiality of such communication received. Violations and concerns can be reported confidentially via email to corporate.ethics@tcs.com. c. Other Reimbursements: Basis of actual utilization LISP is entitled to charge TCS for reimbursements of expenses on actual spend as defined below:

#	Description	Price
1	Surveillance Camera facility to record a session	Rs. 10 per node per day
2	Print Per Sheet	Rs. 1 per sheet

- TCS shall pay food expenses to LISP maximum upto Rs. 4 per candidate as per exam specific guidelines for providing food to TCS &/or LISP staff and Observers from examination conducting body on the day of the examination.
- TCS shall pay maximum upto Rs. 2 per candidate as per exam specific guidelines to the LISP towards miscellaneous expenses incurred during the day of the examination.

ii. Diesel Generator Cost: LISP will charge TCS for reimbursement of diesel expenses for the DG usage at rates specified below:

Sr. No.	Description	Rate
1	Diesel Cost	Rs. 4.5 per candidate

Number of Shift	Single Shift	Double Shift	3 or More Shift
Minimum Amount	Rs. 500	Rs. 1,500	Rs. 2,500

LISP shall be eligible for payout basis actual utilization (Diesel Cost per candidate \* Number of registered candidates scheduled) or Minimum Amount whichever is higher.

On the day of the examination in case diesel generator fails and TCS is required to arrange for alternate diesel generator, LISP shall pay the actual expense incurred as follows:

- In case LISP has a valid invoice for which payment is due from TCS, LISP can raise a credit note against the valid invoice.
- In case LISP does not have a valid invoice, LISP shall raise a credit note along with cheque for the actual expense.

#### 4. Miscellaneous:

- TCS will raise a Work order whenever TCS wants to use LISP hardware and LISP shall raise an undisputed invoice after the Usage Period within 60 days from the date of examination. LISP shall attach a copy of the Work Order and supporting documents along with the invoice. TCS shall verify the invoice and pay a validated invoice within thirty (30) days from the date of receipt of original hard copy of the invoice on best effort basis.
- In case TCS does not receive undisputed invoice within 60 days from the date of examination, TCS shall not be liable to make payment to the LISP.

#### SCHEDULE - 3 SERVICE LEVEL CREDITS

- LISP shall provide confirmation of center within 24 hours of receiving Work Order from TCS personnel.
- LISP shall ensure that the details of personnel providing investigation/supervision service are shared with TCS personnel 10 days prior to the period specified in Work Order.
- LISP shall ensure that the invoices are dispatched immediately after completion of the project as stated in Work Order.

Facilities/Facilities shall be provided but not limited to the following list:

a. General Facilities

- i. Furnished IT Lab with hardware
- ii. Air conditioned server & UPS room
- iii. Fire Aid
- iv. Fire extinguishers
- v. Drinking water
- vi. Elevators
- vii. Road lights and traffic
- viii. Housekeeping staff (including but not limited to Sanitary, Food, Security Guards, Elevators, etc. (inclusive, etc.))

b. (Direct) Generator Facilities

- i. Dedicated Diesel Generator (DG) supply to the facilities of a standard make which is supported by AMC and service contracts at all hours.

c. Assessment Support

- i. As per TCS requirement, LISP will arrange for required assessment support by engaging personnel at the rate of Administrative Assistants (AA) including, Security Guards, etc. as shown and determined by the rate of Administrative Assistants (AA) including, Security Guards, etc. as shown and determined by TCS. TCS and/or Authorized Personnel shall estimate and pay for such required support/expense as per rates specified in point 3 (b) of Schedule 2. The LISP shall share the details of such personnel providing the assessment/operation service with TCS, and/or Authorized Personnel as and when required.
- ii. LISP will provide furnished IT Lab with hardware, air-conditioned server room & UPS room, generator etc. supply.

2. LISP Hardware:

Based on requirements of TCS, as per Work Order, including but not limited to the following as applicable:

- a. Computer Nodes (Per Node Contract and Quad Prio Servers)
- b. LAN Facility
- c. Surveillance Camera facility to record a camera based on TCS requirement.
- d. Recording media (CD/DVD)
- e. Webcam for registration based on TCS requirement
- f. Internet Connectivity (with at least broadband connectivity)
- g. Laser / Ink Jet Printer (Per Unit)
- h. Printer with printing paper
- i. UPS
- j. Generator back up

3. Fees:

TCS shall pay Fees only for LISP Hardware for nodes at Rs. 50 per node per day for the highest number of nodes used by TCS on the particular day. In case LISP cannot meet the requirement of TCS, TCS reserves the right to proportionately reduce the node rate basis the number of hours for which LISP has made the nodes available.

During Usage Period for personnel engaged and if the cost of the same is not included as per above defined rates then LISP shall be entitled to charge TCS for actual number of personnel engaged at the following agreed rates.

Sr. No.	Personnel Description	Single Shift Price	Two Shift Price	Three Shifts Price	Four+ Shifts Price
1	System Administrator	Rs 750 per shift	Rs. 1125 per day	Rs. 1500 per day	Rs. 1850 per day
2	IT Managers	Rs 750 per shift	Rs. 1125 per day	Rs. 1500 per day	Rs. 1850 per day
3	IT Assistants	Rs. 400 per shift	Rs. 600 per day	Rs. 800 per day	Rs. 900 per day
4	Invigilators	Rs. 500 per shift	Rs. 750 per day	Rs. 1000 per day	Rs. 1100 per day
5	Support	Rs. 300 per shift	Rs. 450 per day	Rs. 600 per day	Rs. 650 per day

TCS/its Service Provider shall pay the aforesaid charges less actual invoice received from the LISP.

ADDITIONAL INFORMATION/ DEVIATION, IF ANY

Vendor Agreement

1. IPAT Offline examinations shall be conducted at the Service Provider Centre as per the terms and conditions of the Agreement on a mutually agreed date and time of the month.
2. Service Provider to confirm IPAT of test infrastructure facilities / tests availability within 48 hours of receiving inquiry.
3. Service Provider to revert to IPAT with signed and sealed copy of the purchase order acceptance within 48 hrs. of receipt of PO, failing which it will be deemed to be accepted.
4. Service Provider will allot and make available the test venue / lab, to IPAT for exam purpose to IPAT on the scheduled exam date, as well during week end days (i.e. PO is raised, venue cannot be booked due to subsequent intimation sent to candidates for exam venue).
5. Prior to signing the agreement or confirming venue for any exam requirement, test venue infrastructure provided (i.e., Network switch, Rack, Firewall, Modem, Internet bandwidth & speed, LAN, UPS, VPS, etc.) will be audited by authorized technical engineers from IPAT on mutually agreed dates for which venue facility to be provided free of cost.
6. IPAT shall provide the initial audit findings report to the test venue SPOC with the details on gaps and deviations observed in the infrastructure not meeting the requirements.
7. That the Venue provider SPOC shall undertake to resolve the discrepancies notified in the audit in less than 2 working days from the date of receipt of report.
8. That all the changes done and resolutions provided to meet the technical requirements of the infrastructure stipulated after the initial audit shall remain unaltered at the test venue or maintained under different user profile settings for IPAT exam purpose.
9. In case of qualified and audited venue being booked by raising the PO for any particular exam, the PO will be reviewed, if there are open audit findings/discrepancies found about venue infrastructure necessary for smooth conduct of online exam and not resolved within mutually discussed time/2 working days.
10. That the personnel assigned by the test venue SPOC for the pre-exam day activities & exam day activities need to report as per the timing discussed in advance by IPAT SPOC and/or mentioned in the schedule / during training for the exams.
11. That the test venue SPOC shall ensure that the PCs allotted for the exam i.e., the NSEI SBI (Secured Browser Tool) installed and the IE browser settings done as per the specifications shared prior to the pre-exam day to enable conduct of venue readiness test on the pre-exam day. Internet access must be disabled on all exam PCs except our Server. Antivirus must be installed and updated on all exam PCs. Unauthorized program such as remote login tool / software must NOT be available and NOT installed on any exam PCs. Test Venue Team will be accountable for exam conduct at the test venue in secure and fair manner, in a secure and fair manner.
12. That the personnel assigned by the test venue will undergo a class-room and on-job training on the pre-exam day for the various roles they handle, the schedule for the training shall be shared to the test venue SPOC.

 14/4/22

13. That the test venue SPOC shall ensure the personnel assigned shall report on time for the training as per the training schedule. The authorized venue head shall also assign one back-up personnel for every two person for the training to manage contingency.
14. That the test venue SPOC shall ensure the entire test venue infrastructure provided for the exams are in proper working condition. NSEIT shall not be liable to pay any charges to venue infrastructure service provider in the event of exam being cancelled due to infrastructure failure or issues related to shortage or quality of manpower provided by the venue.
15. Complete capacity at a venue is to be detailed in annexure with floor, lab number/ name, capacity, full address with landmark etc
16. For every PO, venue service provider will detail which lab is allotted to NSEIT for that exam with reference number mentioned above, details of security guard who will open the gate (including address), SPOC name/ number (including address), Invigilator names/ their numbers, Numbers of all escalation points, etc.
17. Venue service provider will give LAB Infrastructure in NSEIT possession one day prior to exam day for readiness checks/trial runs
18. Venue provider will intimate any changes in infrastructure such as venue shifting, non availability for any particular period, changes in IT infrastructure such as OS changes, Internet connection changes etc atleast 60 days in advance
19. Venue provider will intimate any other exam or event happening at the venue at the time of accepting the PO (or subsequently as the case may be) and will ensure that there will not be any disturbance (especially marriages or other noisy functions) / changes due to those events/ exams to already allotted labs, people, entrance gates & other facility
20. Venue will provide buffer PC capacity (10%, 15% or 20% as the case may be and discussed mutually during PP) as a standard practice which should be connected on LAN over and above PO capacity. These are to be used in case of issues, emergencies, etc. If used for additional candidates payment will be made for the same. The buffer capacity is not be construed as back up PCs kept in a storage. These buffer capacity PCs will be also be enabled with NSEIT specific software installed and connected over LAN. Spare LAN Equipments (Network Switches) to be provisioned and kept ready as contingency by Service Provider to prevent any cancellation of exams due to LAN connection, Network Failure, etc.
21. Venue provider will provide staff capable of handling any IT failures, power failures etc. causing exam reschedule. If venue provider fails to resolve the IT Infrastructure/LAN problem re-exam will be conducted free of cost or payment will not be made for impacted session of exams
22. Venue provider will ensure that all the PCs (including buffer) offered, are on single LAN, same floor (as far as possible) & same building. Under no condition the infrastructure in the basement will be accepted ~~etc.~~ for PWD/special candidate arrangements
23. Venue provider to provide additional equipment such as CCTV cameras, Biometric equipment, Bar code readers, Jammers etc. at additional cost mutually discussed on per candidate basis
24. If any other party is using venue infrastructure using any equipments such as mobile jammers it will be intimated to us in advance. In addition, they will ensure that it will not affect communication for NSEIT

apart from providing Landline number where IP3 II (Personnel) can be reached.

- 25. If multiple parties are using premises, venue provider will ensure that the same staff will not be used to service them. There will be dedicated staff provided to individual agencies.
- 26. Venue provider will also make VMAH available (as per requirement) by using manageable switch on hire if opted.
- 27. The venue provider will ensure that their assigned staff will be available at the venue at least 120 hours before the start of first session exam.
- 28. The venue provider will take care of staff welfare such as, their commute, breakfast, lunch, tea etc. on their own. Also it may be done by IP3 II and deducted from venue billing.
- 29. The venue provider will provide to IP3 II names and mobile phone details of the Invigilators (who will be manning the table) for seating purposes along with confirmation of IP3.

Please sign this agreement as an acceptance of above mentioned broad terms, which shall be valid for a period of 16 months from the date of signing.

## MEMORANDUM OF UNDERSTANDING

Gautam College of Pharmacy, Hamirpur (H.P.)

&

Shiva Institute of Pharmacy, Bilaspur (H.P.)

This MEMORANDUM OF UNDERSTANDING entered into on this 07<sup>th</sup> day of July 2024

BETWEEN

Gautam College of Pharmacy, Hamirpur, through its Director cum Principal Prof. (Dr.) Sanjay Kumar for Gautam College of Pharmacy, Hamirpur, having expertise in the areas of scientific, Pharmaceutical education and research, affiliated college of HPTU as the First Party.

&

The Shiva Institute of Pharmacy, Bilaspur (H.P) through the Principal Prof. (Dr.) Vinod Kumar Gautam having expertise in the areas of scientific, Pharmaceutical education and research, as the Second Party.

WHEREAS, Gautam College of Pharmacy, Hamirpur and Shiva Institute of Pharmacy, Bilaspur (H.P) have many areas of common interest in Pharmacy and Sciences, considerable advantage may be gained from their pursuit on a collaborative basis in the fields of academics, education and research.

NOW THEREFORE, Gautam College of Pharmacy, Hamirpur and Shiva Institute of Pharmacy, Bilaspur (H.P) have decided to enter into this Memorandum of Understanding (hereinafter referred to as MoU), which defines the framework for the cooperation of the two institutions set out in the following sections.

### ARTICLE I: OBJECT

Both Institutes agree to develop the following collaborative activities in the academic areas of mutual interest, on a basis of equality and reciprocity.

The two institutions shall seek to promote:

a. Faculty/Scientist/Staff Exchanges

(i) The exchange of faculty to the mutual benefit of both institutions.

(ii) Collaboration in teaching, research and development, and consultancy studies in the field of mutual interest.

(iii) The exchange of academic materials and publications.

(iv) Conducting lectures.

(v) Undertaking joint research.

(vi) Attachment of staff for purposes of curriculum development and review, attendance of courses, upgrading of teaching and research skills.

(vii) Participating in seminars, symposiums, and other types of academic discussions.

(viii) Co-supervising post graduate / Doctoral Students.

(ix) Conducting study tours and joint consultancy work.

A specific plan will be worked out for each activity; setting forth detailed arrangements for collaboration will be agreed. Terms and conditions for each visit or an assignment or such exchange, including those concerning salary, travel funding and housing will be worked out between the institutes. A separate agreement will be entered into giving such details including term of exchange of any intellectual property.

#### ARTICLE II: COORDINATION

Each institution shall appoint one member of its teaching/research faculty to coordinate the programme on its behalf. Further, a coordination committee consisting of a programme coordinator from the side of **Gautam College of Pharmacy, Hamirpur**, and a programme coordinator from the side of **Shiva Institute of Pharmacy, Bilaspur** will periodically review and identify ways to strengthen cooperation between the two institutions.

#### ARTICLE III: CONFIDENTIAL INFORMATION

**Gautam College of Pharmacy, Hamirpur** and **Shiva Institute of Pharmacy, Bilaspur (H.P.)** both does not absolve any confidential information during the research activity.

#### ARTICLE IV: INTELLECTUAL PROPERTY RIGHTS

Ownership of any intellectual property (including but not limited to confidential information, know-how, patents, copyrights, design rights, rights relating to computer software, and any other industrial or intellectual property rights) developed jointly during the course of this MOU shall be vested in both institutes to this Memorandum.

Both institutes shall have the joint right to determine the commercial exploitation and disposition of such intellectual property, and both institutes shall make joint applications for the registration of the same. Before any registration or commercialization of any intellectual property takes place, the institutes agree to reach a separate agreement covering issues such as exploitation rights and revenue sharing.

Gautam College of Pharmacy  
Hamirpur  
171001

Any publication regarding such intellectual property shall only be possible with the prior written consent of both institutes, such consent not to be unreasonably withheld.

Gautam College of Pharmacy, Hamirpur or Shiva Institute of Pharmacy, Bilaspur (H.P) shall be free to use perpetually the results arising out of the collaborating activities for its own internal teaching, research, educational, clinical and publication purposes without the payment of royalties or other fees to the other party.

#### ARTICLE V: VALIDITY

The Memorandum shall remain in force for a period of FIVE years commencing from effective date. Institutions may extend the term by written agreement signed by both after review.

#### ARTICLE VI: TERMINATION

Either institution may terminate the MoU by giving written notice of SIX MONTHS in advance to the other institution. Once terminated, neither Gautam College of Pharmacy, Hamirpur nor Shiva Institute of Pharmacy, Bilaspur (H.P) will be responsible for any losses, financial or otherwise, which the other institutions may suffer.

However, Gautam College of Pharmacy, Hamirpur and Shiva Institute of Pharmacy, Bilaspur (H.P) will ensure that the provisions of this Memorandum shall continue to apply to all activities in progress until their completion.

#### ARTICLE VII: AMENDMENTS/MODIFICATIONS

This MoU may be amended or modified by a written agreement signed by the representatives of both institutes.

#### ARTICLE VIII: ADHERENCE TO LAWS

Participating faculties, staff and students involved in any activities under this Memorandum must adhere to the law of the host countries and rules and regulations of the institutions.

#### ARTICLE IX: LEGAL EFFECT

Nothing in this MoU shall be construed as creating any legal relationship between the institutes. This Memorandum is a statement of intent to foster genuine and mutually beneficial collaboration.

#### ARTICLE X: DISPUTE RESOLUTION

In case, there is a dispute relating to any aspect of academic cooperation, Director cum Principal, Gautam College of Pharmacy, Hamirpur and Shiva Institute of Pharmacy, Bilaspur (H.P) will jointly resolve the dispute in a spirit of independence, mutual respect, and shared responsibility.

## MEMORANDUM OF UNDERSTANDING

**Gautam Group of College, Hamirpur (H.P.)**  
&  
**School of Pharmacy and Emerging Sciences, Baddi University of Emerging Sciences & Technology (H.P)**

This MEMORANDUM OF UNDERSTANDING entered into on this 10 day of June, 2024

BETWEEN

**Gautam College of Pharmacy, Hamirpur**, through its Director cum Principal Prof. (Dr.) Sanjay Kumar from Gautam College of Pharmacy, Hamirpur, having expertise in the areas of scientific, Pharmaceutical education and research, affiliated college of HPTU as the **First Part**,

&

**The School of Pharmacy and Emerging Sciences, Baddi University of Emerging Sciences & Technology, Baddi, (H.P)** through the Dean, Prof.(Dr) Ravinesh Mishra having expertise in the areas of Scientific, Pharmaceutical Education and Research, as the **Second Part**.

WHEREAS, Gautam College of Pharmacy, Hamirpur and School of Pharmacy and Emerging Sciences, Baddi University of Emerging Sciences & Technology, (H.P) have many areas of common interest in Pharmacy and Sciences, considerable advantage may be gained from their pursuit on a collaborative basis in the fields of academics, education and research.

NOW THEREFORE Gautam College of Pharmacy, Hamirpur and School of Pharmacy and Emerging Sciences, Baddi University of Emerging Sciences & Technology, (H.P) have decided to enter into this Memorandum of Understanding (hereinafter referred to as MoU), which defines the framework for the cooperation of the two institutions set out in the following sections.

### ARTICLE: OBJECT

Both Institutes agree to develop the following collaborative activities in the academic areas of mutual interest, on a basis of equality and reciprocity.

The two institutions shall seek to promote:

a. Faculty/Scientist/Staff Exchanges

Director cum Principal  
Gautam College of Pharmacy  
Hamirpur (H.P.)-177001

Director cum Principal  
Gautam College of Pharmacy  
Hamirpur (H.P.)-177001

Dean  
School of Pharmacy & Emerging Sciences  
Baddi University of Emerging Sciences  
& Technology, Baddi (H.P.)

- (i) The exchange of faculty to the mutual benefit of both institutions.
- (ii) Collaboration in teaching, research and development, and consultancy studies in the field of mutual interest.
- (iii) The exchange of academic materials and publications.
- (iv) Conducting lectures.
- (v) Undertaking joint research.
- (vi) Attachment of staff for purposes of curriculum development and review, attendance of courses, upgrading of teaching and research skills.
- (vii) Participating in seminars, symposiums, and other types of academic discussions.
- (viii) Co-supervising post graduate / Doctoral Students.
- (ix) Conducting study tours and joint consultancy work.

A specific plan will be worked out for each activity; setting forth detailed arrangements for collaboration will be agreed. Terms and conditions for each visit or an assignment or such exchange, including those concerning salary, travel funding and housing will be worked out between the institutes. A separate agreement will be entered into giving such details including term of exchange of any intellectual property.

#### ARTICLE: COORDINATION

Each institution shall appoint one member of its teaching/research faculty to coordinate the programme on its behalf. Further, a coordination committee consisting of a programme coordinator from the side of Gautam College of Pharmacy, Hamirpur, and a programme coordinator from the side of School of Pharmacy and Emerging Sciences, Baddi University of Emerging Sciences & Technology, (H.P) will periodically review and identify ways to strengthen cooperation between the two institutions.

#### ARTICLE: CONFIDENTIAL INFORMATION

Gautam College of Pharmacy, Hamirpur and School of Pharmacy and Emerging Sciences, Baddi University of Emerging Sciences & Technology, (H.P) both does not absolve any confidential information during the research activity.

#### ARTICLE: INTELLECTUAL PROPERTY RIGHTS

Ownership of any intellectual property (including but not limited to confidential information, know-how, patents, copyrights, design rights, rights relating to computer software, and any other industrial or intellectual property rights) developed jointly during the course of this MOU shall be vested in both institutes to this Memorandum.

Both institutes shall have the joint right to determine the commercial exploitation and disposition of such intellectual property, and both institutes shall make joint applications for

Gau  
Hamirpur

Director/Principal  
Gautam College of Pharmacy  
Hamirpur (H.P)-177001

School of Pharmacy & Emerging Sciences  
Baddi University of Emerging Sciences &  
Technology, Baddi, India, India (H.P) 171001

the registration of the same. Before any registration or commercialization of any intellectual property takes place, the institutes agree to reach a separate agreement covering issues such as exploitation rights and revenue sharing.

Any publication regarding such intellectual property shall only be possible with the prior written consent of both institutes, such consent not to be unreasonably withheld.

Gautam College of Pharmacy, Hamirpur or School of Pharmacy and Emerging Sciences, Baddi University of Emerging Sciences & Technology, (H.P) shall be free to use perpetually the results arising out of the collaborating activities for its own internal teaching, research, educational, clinical and publication purposes without the payment of royalties or other fees to the other party.

#### ARTICLE: VALIDITY

The Memorandum shall remain in force for a period of FIVE years commencing from effective date. Institutions may extend the term by written agreement signed by both after review.

#### ARTICLE: TERMINATION

Either institution may terminate the MoU by giving written notice of six months in advance to the other institution. Once terminated, neither Gautam College of Pharmacy, Hamirpur nor School of Pharmacy and Emerging Sciences, Baddi University of Emerging Sciences & Technology, (H.P) will be responsible for any losses, financial or otherwise, which the other institutions may suffer.

However, Gautam College of Pharmacy, Hamirpur and School of Pharmacy and Emerging Sciences, Baddi University of Emerging Sciences & Technology, (H.P) will ensure that the provisions of this Memorandum shall continue to apply to all activities in progress until their completion.

#### ARTICLE: AMENDMENTS/MODIFICATIONS

This MoU may be amended or modified by a written agreement signed by the representatives of both institutes.

#### ARTICLE: ADHERENCE TO LAWS

Participating faculties, staff and students involved in any activities under this Memorandum must adhere to the law of the host countries and rules and regulations of the institutions.

#### ARTICLE: LEGAL EFFECT

Nothing in this Memorandum shall be construed as creating any legal relationship between the institutes. This Memorandum is a statement of intent to foster genuine and mutually beneficial collaboration.

# Memorandum of Understanding

between

Maharaja Agrasen University  
Baddi, Himachal Pradesh, India

and  
The Gautam College of Pharmacy  
Hamirpur, Himachal Pradesh

This Memorandum of Understanding is made on this 10<sup>th</sup> day of August 2024 between Maharaja Agrasen University having their campus at, Atal Sukumar Kauri, Nanakpur, Patjore Nalagarh National Highway, near Barotiwala, Tehsil Baddi, Distt. Solan, Himachal Pradesh - 174103, represented by its Vice Chancellor - Dr. R. K. Gupta, as the First Party (hereinafter referred to as "University" or "MAU" or the "First Party")

And

The Gautam College of Pharmacy, Hamirpur, Himachal Pradesh 177001, represented by its Director, Prof.(Dr.) Sanjay Kumar (hereinafter referred to as "College" or the "Second Party").

Maharaja Agrasen University (MAU), Solan is a Private University located in District Solan, Himachal Pradesh and was established in the year 2013. The University is approved by the All India Council for Technical Education (AICTE), Pharmacy Council of India (PCI), Bar Council of India (BCI) and is recognized by the University Grants Commission of India (UGC). The University is envisioned to be an educational institution of repute for providing excellent academic, research and extra-curricular opportunities and thereby be the first choice of the students, academicians and research scholars. MAU offers various Diploma, Undergraduate, Postgraduate and Doctorate level courses in a wide variety of fields like Basic & Applied Sciences, Law, Management, Pharmacy, and Technology.

Gautam College of Pharmacy, Hamirpur, Himachal Pradesh, is associated with Gautam Group of Colleges, Gautam Group of Colleges which was established in June 1999. It comprises five colleges: Gautam College Hamirpur, Gautam College of Nursing, Gautam Institute of Management & Technology, Gautam College of Pharmacy, and Gautam Veterinary Pharmacist Training Institute. The Gautam College of Pharmacy offers D. Pharmacy, B. Pharmacy, B. Pharmacy (Lateral Entry Scheme) and M. Pharmacy (Pharmaceutical Chemistry). The college was founded with the goal of providing high quality education to the state's youth, constantly pushing for growth and development, and fostering humanitarian personalities by combining traditionalism and modernity. The college's founder intended for the school to become a center of excellence in North India, providing young people with the skills they need to explore possibilities and live fulfilling, creative lives in a rapidly changing world. The college's objective is to overcome challenges and strive for excellence.

Dr. R. K. Gupta  
Vice Chancellor  
Maharaja Agrasen University  
Baddi, Himachal Pradesh - 174103

Prof. (Dr.) Sanjay Kumar  
Director  
Gautam College of Pharmacy  
Hamirpur, Himachal Pradesh - 177001

Dr. R. K. Gupta  
Vice Chancellor  
Maharaja Agrasen University  
Baddi, Himachal Pradesh - 174103

## 1. OBJECTIVES OF THE MOU

1.1 In the spirit of friendship and with mutual interest in cooperation, the areas of cooperation will include any programme offered by MAU as thought desirable and feasible on either side and that both the parties will contribute to the fostering and development of the cooperative relationship between the two institutions and to promote collaborative educational, research and cultural activities. Cooperation/collaboration shall be through such activities as:

- 1.1.1 Exchange of faculty and/or staff
- 1.1.2 Exchange of students
- 1.1.3 Joint teaching, research, or cultural activities;
- 1.1.4 Joint organization of seminars and academic meetings
- 1.1.5 Faculty/Staff professional development;
- 1.1.6 Exchange of academic materials and other related information
- 1.1.7 Special short-term academic programs.
- 1.1.8 Joint research publications.

## 2. DURATION AND EVALUATION OF MOU

- 2.1 This MOU will come into operation with effect from the date of signing and will remain in force and effect for a period of three years or until the Termination Date. Either party may request termination of this agreement, in writing, ninety days prior to the proposed termination date.
- 2.2 A joint evaluation of the MOU will be initiated by the designated representatives of the two Universities six months prior to the expiration date. Following the evaluation, the MOU may be renewed and extended for an additional five year period.
- 2.3 Amendments to this MOU may be requested, in writing, by either party and will be approved by the authorized signatories of the two Institutions.

## 3. AREA OF COLLABORATION

- 3.1 Areas of collaboration may be proposed by either party and may include the area of *Pharmacy* studies, but are not limited to stated activities. Any other related academic, cultural or research activity may be undertaken on mutual understanding between the two Institutions.
- 3.2 Any specific activity developed under this MOU shall be detailed in a subsequent agreement, to be signed by authorized signatories of both the parties, which will describe the scope of the proposed activity, intended outcomes, budget, and responsible departments or individuals.
- 3.3 All activities shall be subject to the availability of funds and with the approval of authorized representatives/signatories.

## 4. STUDENT EXCHANGE

- 4.1 The aim of the exchange program is to provide students an opportunity to have experience of diverse academic environment as well as to gain a better understanding of related concepts through education under this MOU.
- 4.2 The number of students exchanged under this MOU shall be not more than twenty students at a time from each Institution. The total number of mutual exchange students will be same from each Institution during the term of MOU.

2

  
Director  
Gautam College of Pharmacy  
Hamirpur (H.P.)-177001

- 4.3 The host Institution has the right to decide acceptance of exchange students, as per recommendations issued by the home Institution for exchange students based on their academic record.
- 4.4 Transportation, accommodation, food, clothing and other personal costs including the medical health insurance and medical care will be the personal responsibilities of the students themselves. The host Institution may reduce the application fees, entrance fees, and tuition fees of the exchange students. However, the host Institution may charge an amount for providing laboratory, library, internet facilities etc. The amount will be intimated at the time of making an offer.
- 4.5 The host Institution shall reserve or make available accommodation on campus for exchange students or assist them in locating suitable housing off campus if they so desire.
- 4.6 The exchange student is treated as either the research student or specially registered student.
- 4.7 The exchange students will be subject to the student rules of the host College/University, while on exchange. Exchange students will be offered the same facilities as students of the host College/University.
- 4.8 Exchange students will study subjects or conduct researches which are pertinent to their field of study and are offered by the host College/University.

## 5. FACULTY EXCHANGE

- 5.1 Both the parties will actively seek to promote mutual faculty exchange for a mutually agreed period.
- 5.2 Faculty exchange may assume various forms, such as individual short-time and long-term visits of faculties, joint research and development projects.
- 5.3 Both the parties will encourage their faculty for co-authoring research publications, joint research activities and joint projects subject to applicable copyright and / or other applicable laws as well as rules and regulations of the respective Universities.
- 5.4 The host Institution will make available facilities such as working space, internet, laboratories, libraries etc.
- 5.5 All expenses for travel, living and allied costs will be left to the discretion and the responsibility of the respective Institution.

## 6. COORDINATORS

- 6.1 Both the institutions will designate persons who will have responsibility for co-ordination and implementation of this agreement.

## 7. COMPLIANCE WITH LAW

- 7.1 Both the parties specifically intend to comply with all applicable Central, State, Local laws, Rules, and/or regulations or as may be amended from time to time. If any part of this MOU is rendered as to violate any Central, State, Local Laws, Rules and/or Regulations, the parties agree to negotiate in good faith revisions to any such provisions.

7.2 If either of the parties fail to agree to amend MOU within a reasonable time to bring the MOU in conformity with the applicable laws of the land, either party may terminate this Agreement with a thirty days prior written notice to the other party.

## 8. INTELLECTUAL PROPERTY RIGHTS

8.1 The intellectual property rights (IPR) that would arise as a result of joint research and collaborative activities under the agreement will be worked out on case to case basis and will be in consistent with IPR policies of the two Universities and applicable Laws.

## 9. DISPUTE RESOLUTION

9.1 Both the parties shall attempt to resolve all disputes arising out of or relating to the MOU through direct negotiations within reasonable time.

9.2 In case of any dispute between both the parties, the same shall be liable to be challenged within the jurisdiction of the Place/District of the university where the agreement, so has been signed and executed.

*In witness hereof, both Universities hereto have offered their signatures.*
